08 Solving in process

Wait a moment while we clean your schedule up

The screenshot displays the UMTAS Timetable Solver interface. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver (active), Schedules, Actions, Admin, and Help. The user is logged in as SA, with a Sign out option. The interface is divided into three main sections: Upload, Review, and Preferences. The Upload section shows a PDF file named 'LECTURES_S2.pdf' that has been completed, with a 'Browse files' button and a 'Continue' button. The Review section, titled 'Review your Activities', lists three activities: COS301 P1 (07:30 P1), COS301 P2 (07:30 P2), and COS301 L1 (11:30 L1), with an 'Events Confirmed' button. The Preferences section, titled 'Set your preferences', shows a 'Solving...' status with a loading spinner. A progress bar at the bottom indicates the current step in the process.

09 Viewing your schedule

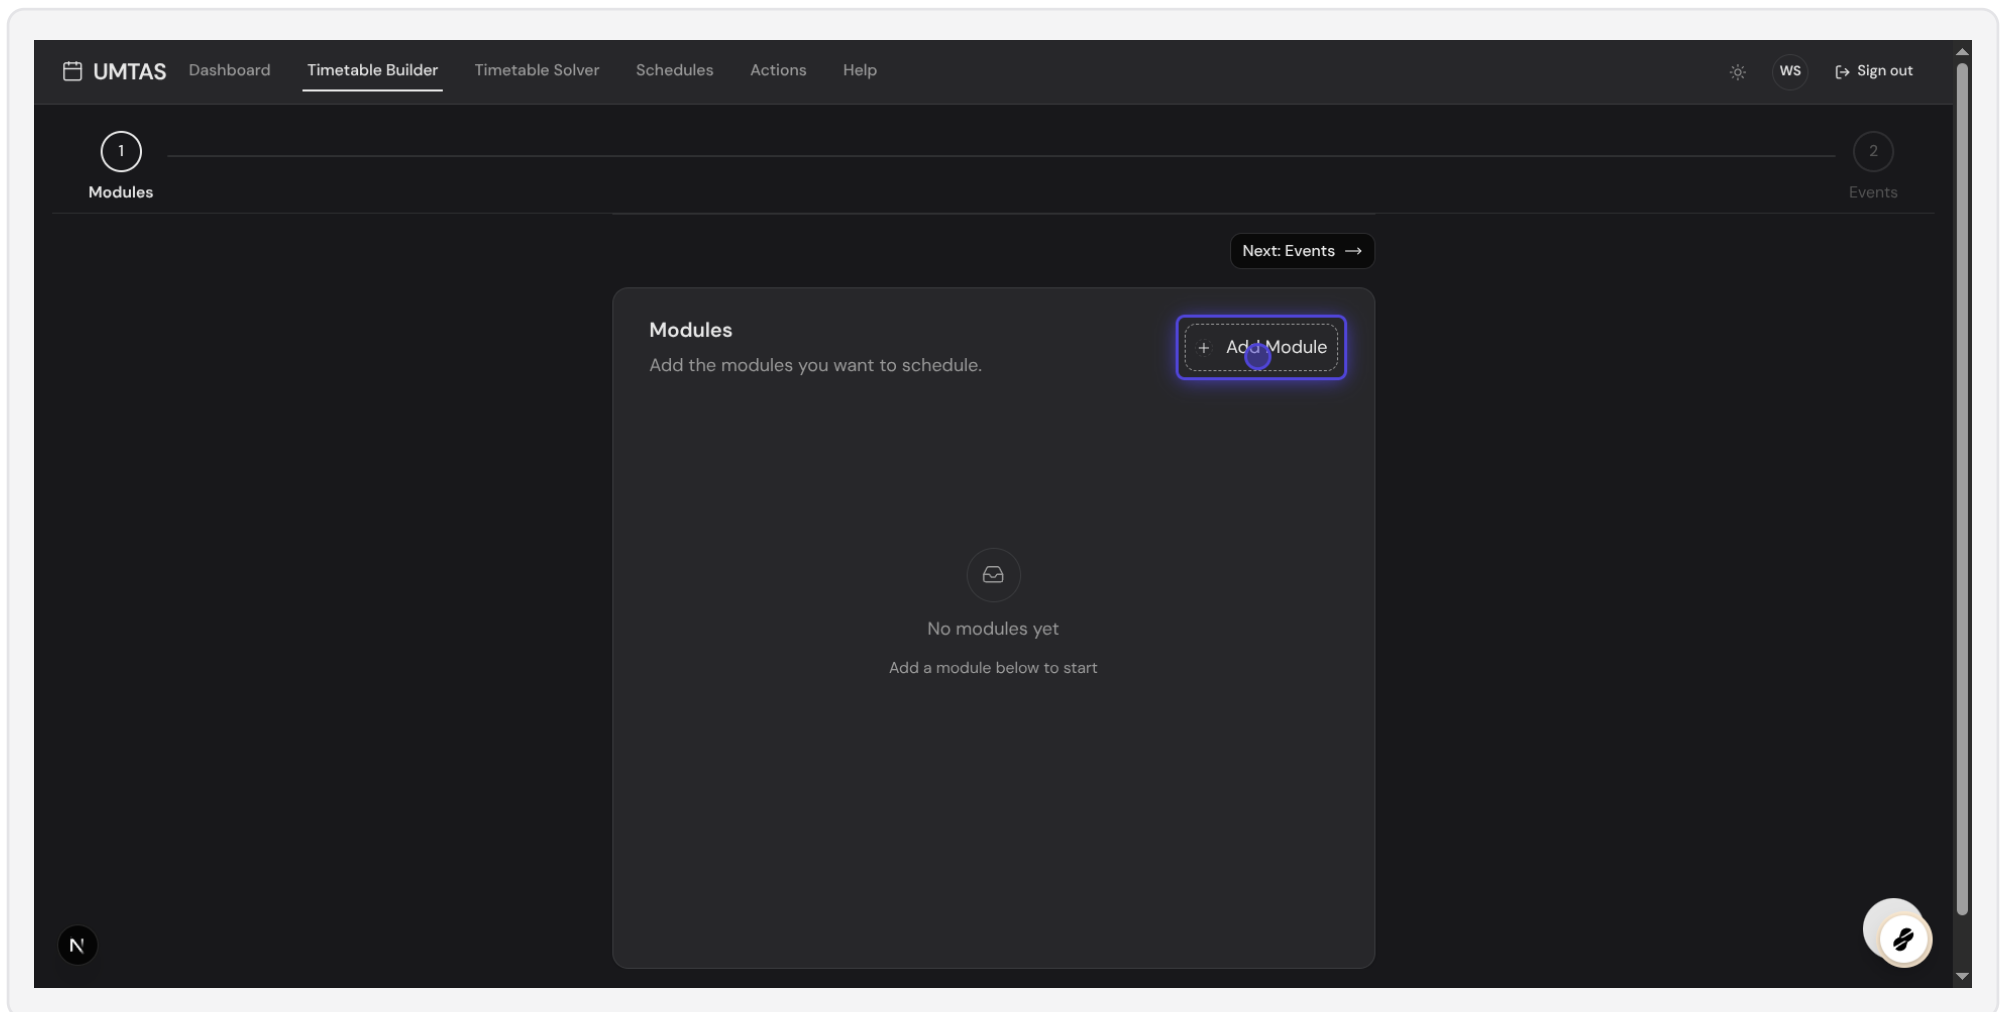

Once finished we will redirect you to the schedules page

The screenshot displays the UMTAS Schedules page. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver, Schedules (active), Actions, Admin, and Help. The user is logged in as SA and can sign out. The main heading is "Your Schedule" with a subtext "16 events - 5 modules". Below this, there's a "Solved Timetable" dropdown and a calendar icon. Action buttons for "Export .ics" and "Save to Google Calendar" are present, along with icons for calendar, edit, and delete. The timetable itself is a grid with days of the week as columns and time slots as rows. Events are shown as colored blocks with details like course code, type, and time.

01 Create a module

Click the 'Add Module' button to create a new default module that belongs to you.

02 Update Module details

Click on the Module card to reveal its details.

03 Update Module Code

Fill in the input box for the module Code

The screenshot shows a dark-themed interface for updating a module. On the left is a dark sidebar. The main area has a header with a blue dot and the text 'Module 755' and 'MOD12'. Below this are two input fields: 'Code' and 'Name'. The 'Code' field contains 'MOD12' and has a blue circular icon to its right. The 'Name' field contains 'Module 755'. Below these fields is a 'Colour' section with eight colored circles: blue, green, orange, red, purple, brown, light blue, and pink. At the bottom right is a 'Confirm' button with a checkmark icon.

04 Update Module Name

Fill in the input box for the module Name

The screenshot shows a dark-themed interface for updating a module name. At the top, the text 'Eng' and 'MOD123' is displayed. To the right of this text is a red trash icon. Below this, there are two input fields: one labeled 'Code' containing 'MOD123' and another labeled 'Name' containing 'Eng'. The 'Name' input field is highlighted with a blue border and a blue circular cursor. Below the input fields is a row of eight colored circles (blue, green, orange, red, purple, orange, blue, pink). At the bottom, there is a 'Confirm' button with a checkmark icon.

05 Confirm Changes

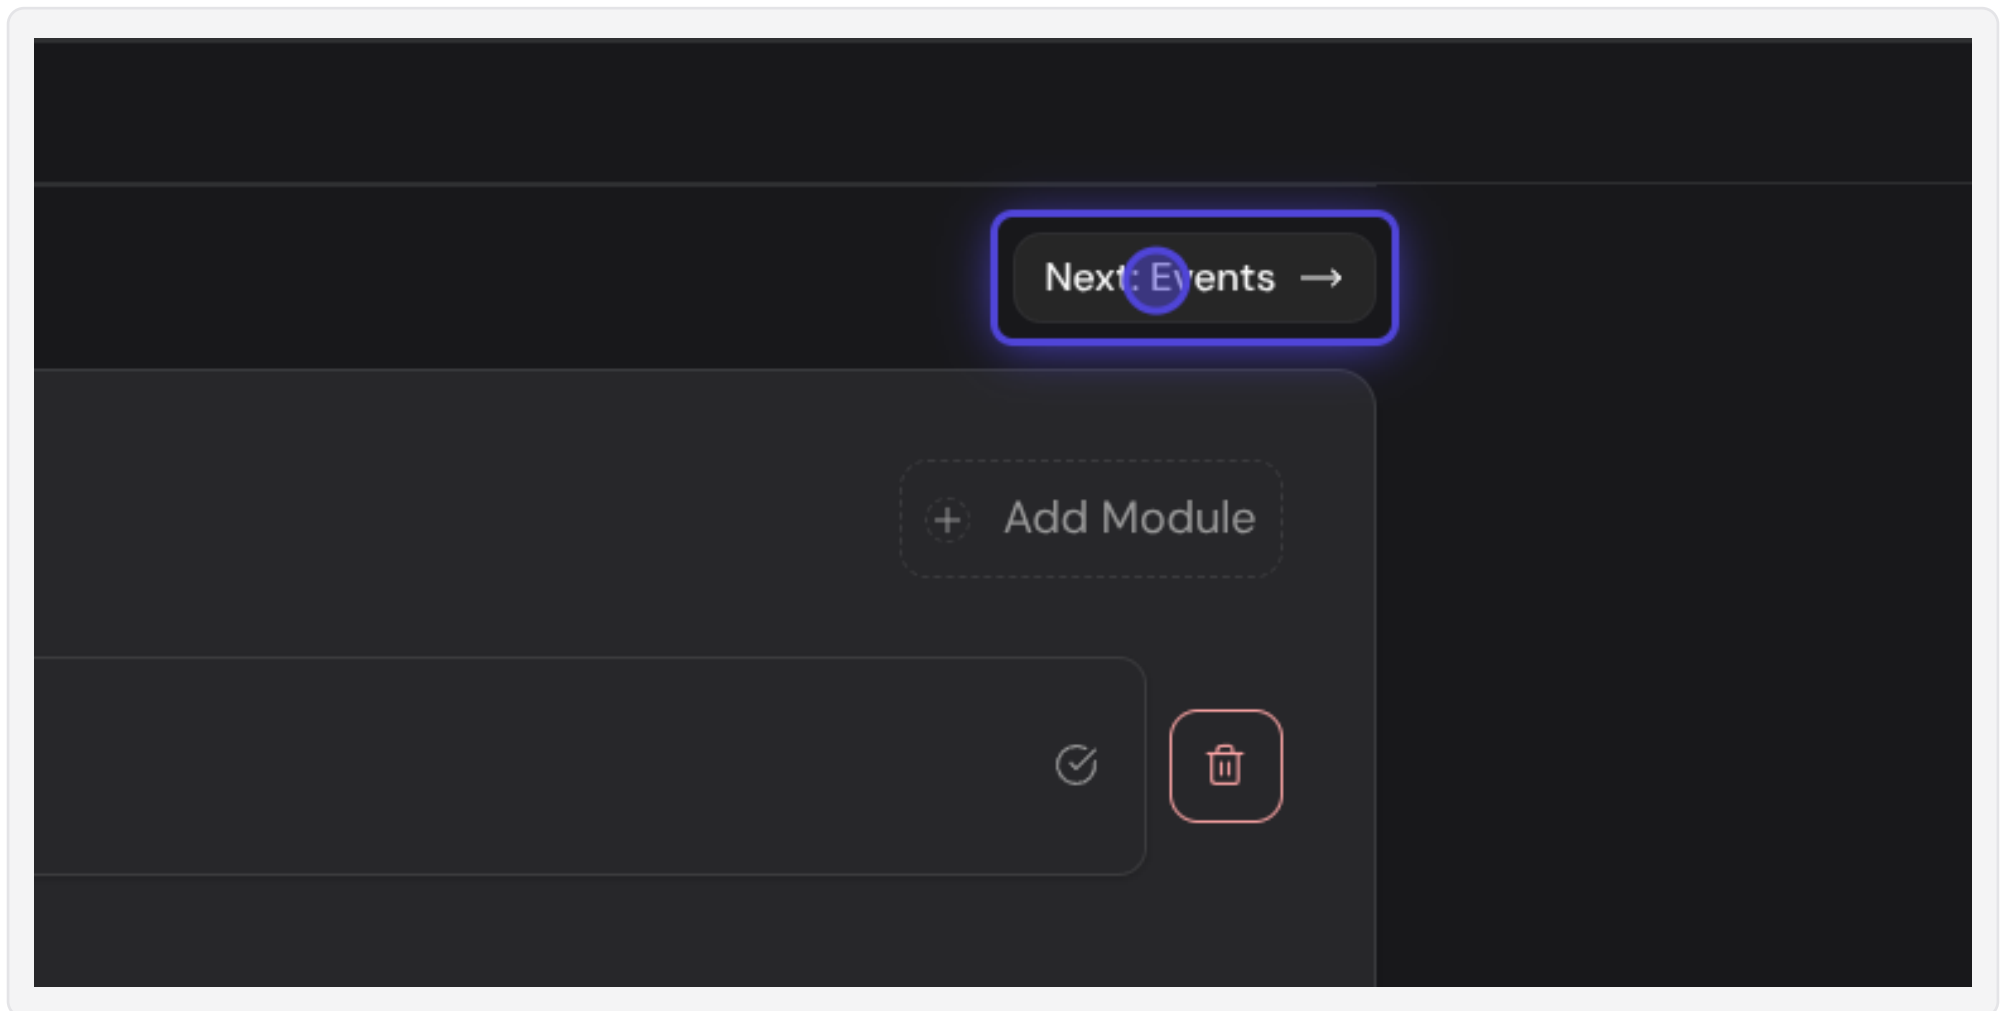

Click on Confirm to update the module details

The screenshot shows a dark-themed user interface for confirming changes to a module. At the top, the text 'MOD123' is partially visible. Below it, there are two input fields: 'Code' containing 'MOD123' and 'Name' containing 'Eng'. Under the 'Code' field, there is a 'Colour' section with a row of seven colored circles: blue, green, orange, red, purple (selected with a white checkmark), light orange, and pink. At the bottom, a dark bar contains a circular icon with a checkmark and the word 'Confirm'. The entire 'Confirm' bar is highlighted with a blue glow.

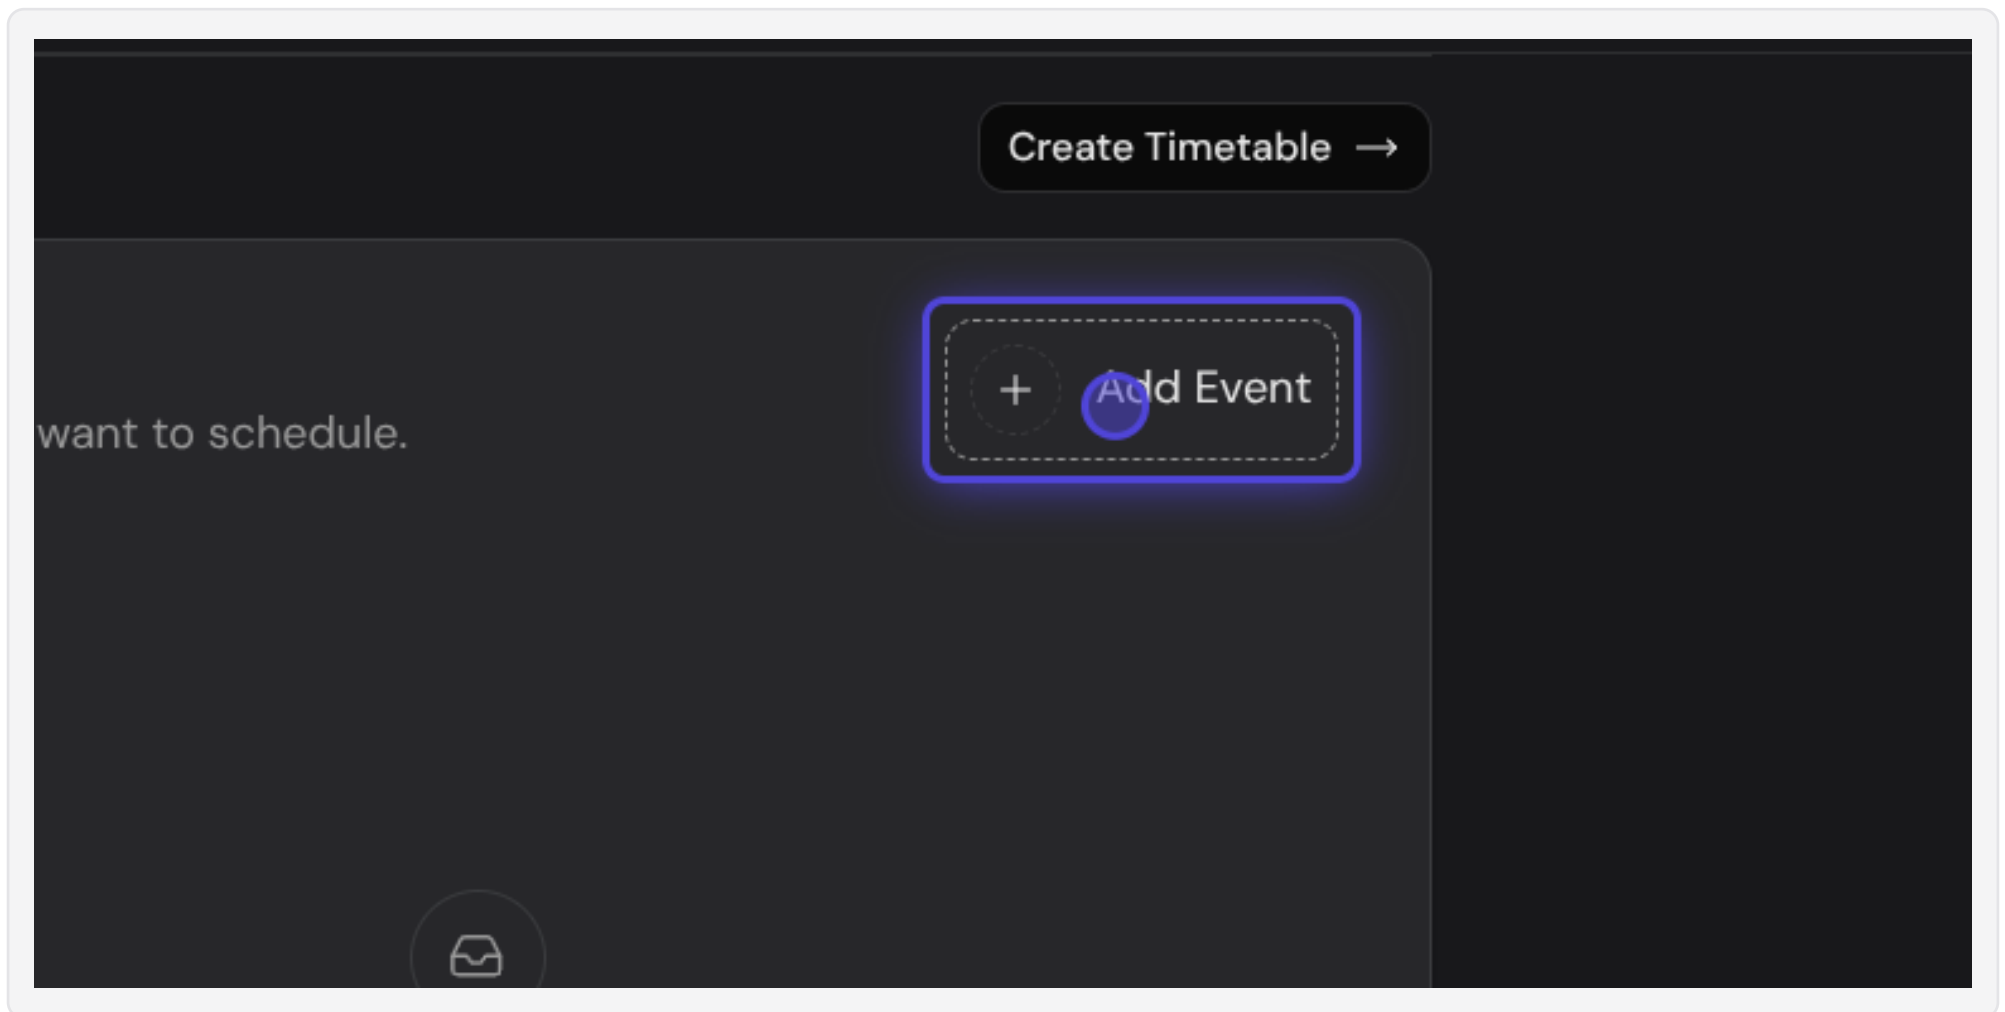

06 Move to events tab

Click on Next: Events to go to the event creation tab

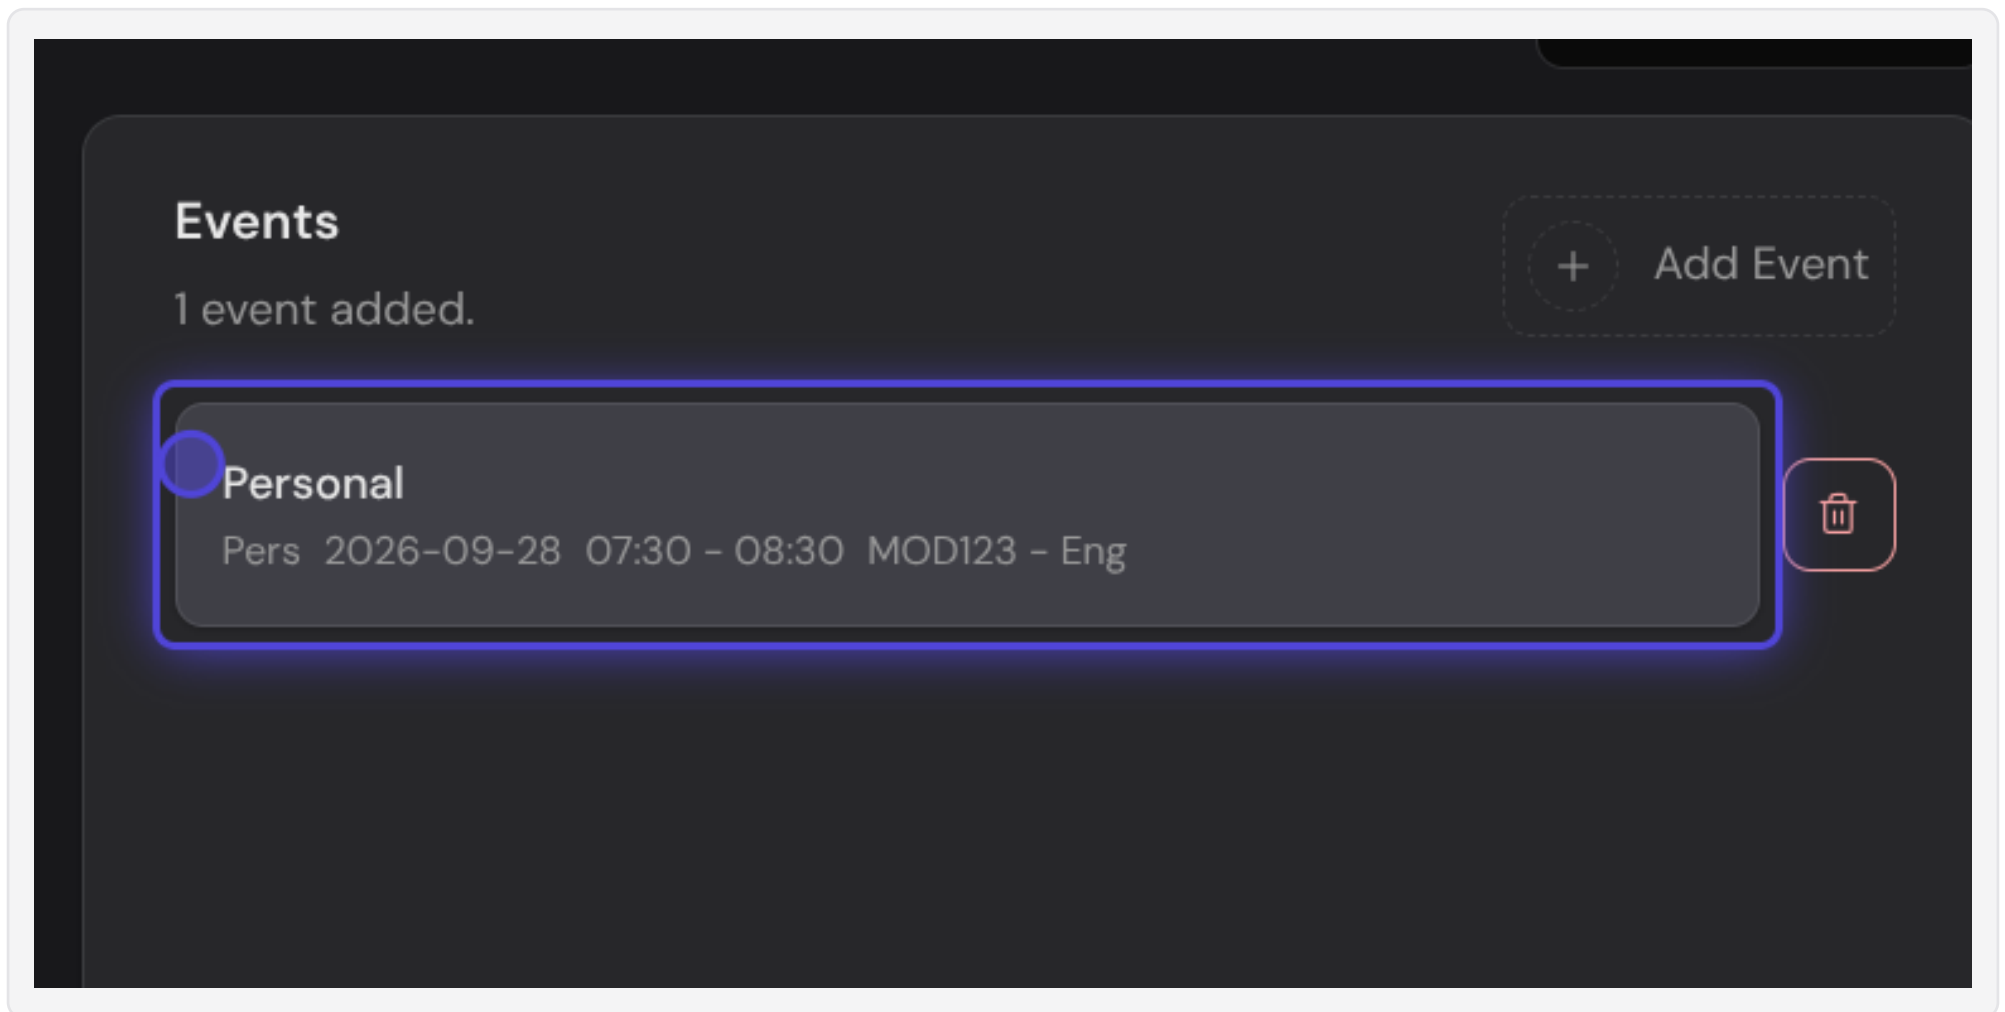

07 Add Event

Click Add Event to create an event

08 Reveal Event details

Click on the card to reveal all Event details

09 Event details

All event details can be modified here

The screenshot displays the UMTAS Timetable Builder interface. The top navigation bar includes links for Dashboard, Timetable Builder (active), Timetable Solver, Schedules, Actions, and Help. A user profile icon labeled 'WS' and a 'Sign out' button are on the right. Below the navigation bar, a 'Back' button and a 'Create Timetable' button are visible. The main content area is titled 'Events' and shows '1 event added.' A '+ Add Event' button is in the top right of the event list. The event 'Lecture 1' is listed with details: 'L1 2026-09-28 08:30 - 09:30 MOD123 - Eng'. A trash icon is next to the event name. Below the event list, a form allows editing the event details. The form fields are: Name (Lecture 1), Code (L1), Venue (IT-2-26), Building (IT), and a 'Recurring Weekly' toggle switch (currently off). The Date field is set to 09/28/2026. At the bottom, the time range is set to 08:30 - 09:30. A small 'N' icon is in the bottom left corner, and a circular icon with a lightning bolt is in the bottom right corner.

The new schedule opens after generation. Review its events in the timetable view.

The screenshot displays the UMTAS Timetable Builder interface. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver, Schedules (active), Actions, and Help. The main area shows a timetable for 1 event - 1 module. The timetable is a grid with days of the week as columns and time slots as rows. A single event, 'LECTURE 1 Not Attending', is scheduled for Monday, 28 Sep, from 08:30 to 09:30. The interface also includes options to export the timetable as an .ics file or save it to Google Calendar. A sidebar on the left shows a list of events, and a bottom bar contains a navigation icon and a user profile icon.

01 View all Modules

By default you will see all the modules for your institute.

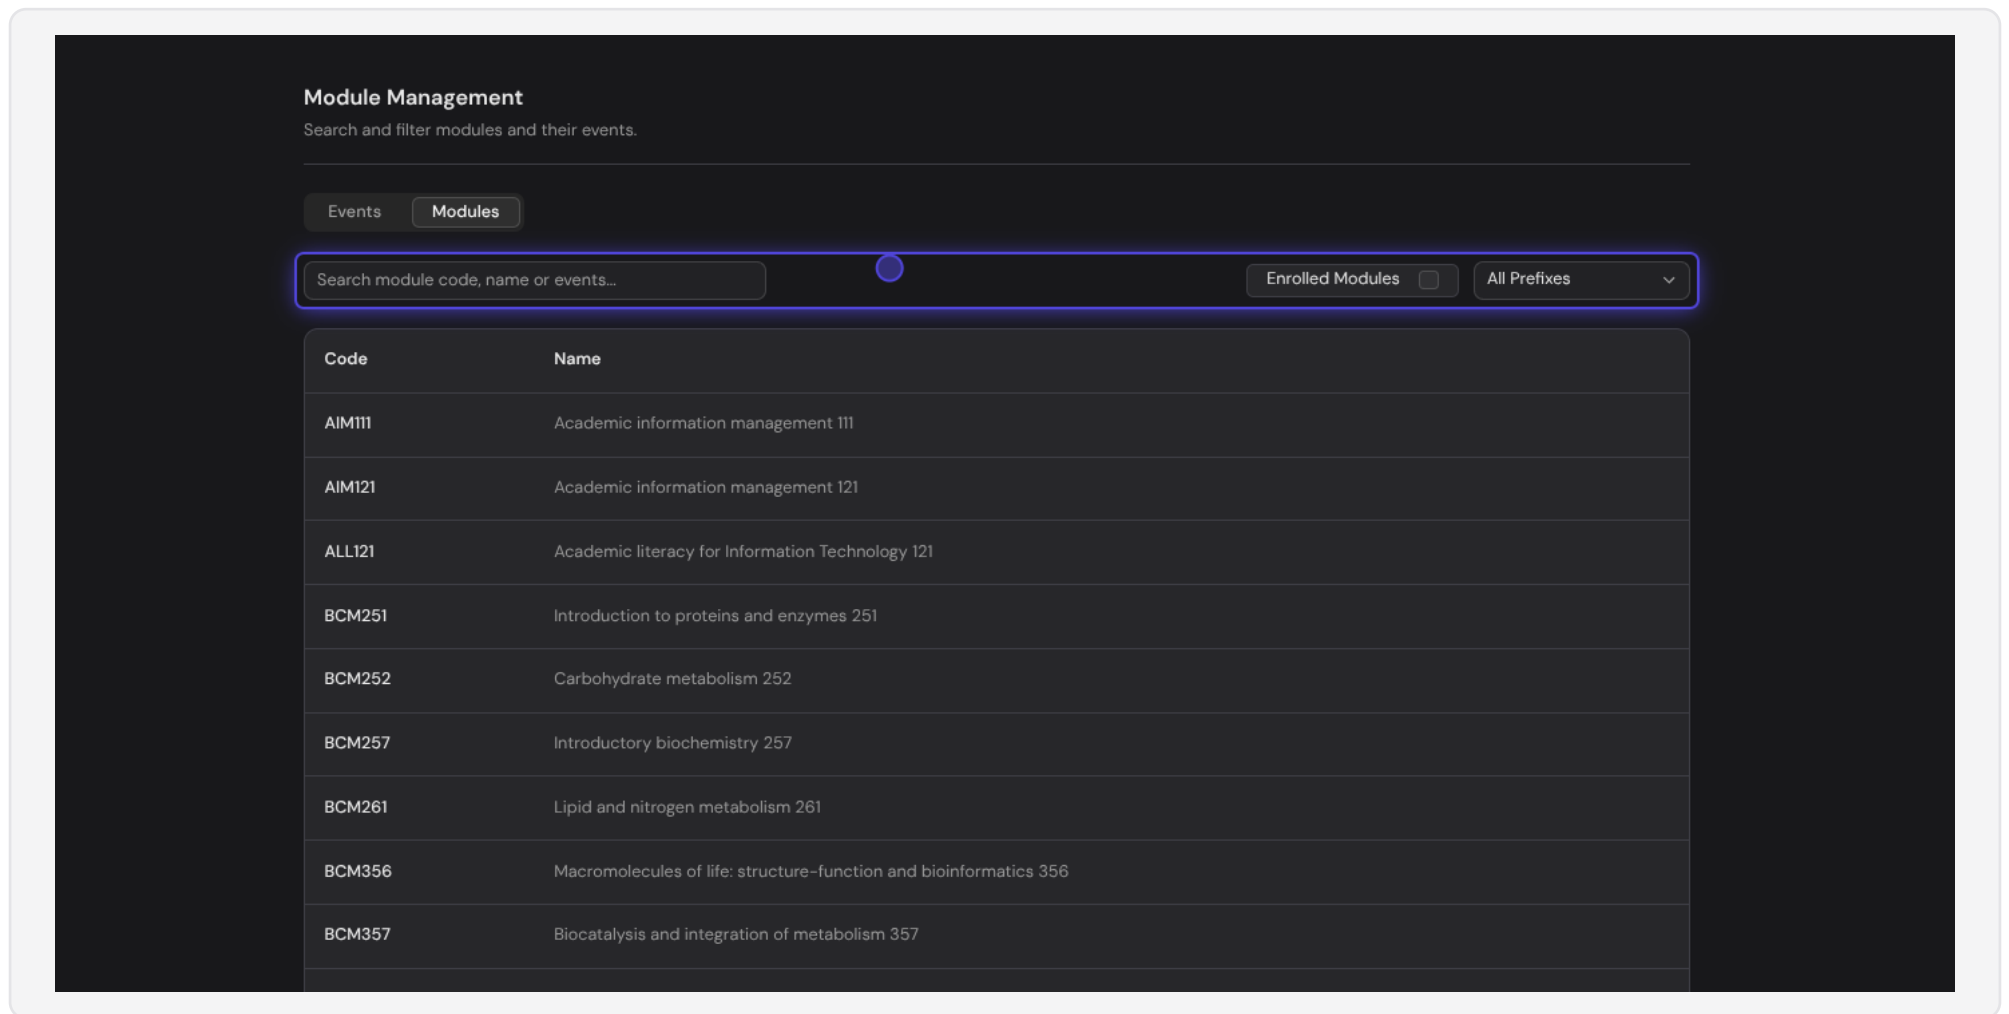

The screenshot displays the UMTAS Module Management interface. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions (selected), Admin, and Help. The main heading is "Module Management" with the subtitle "Search and filter modules and their events." Below this, there are tabs for "Events" and "Modules" (selected). A search bar is present with the placeholder text "Search module code, name or events...". To the right of the search bar, there are two filters: "Enrolled Modules" (with a checkbox) and "All Prefixes" (with a dropdown arrow). The main content area is a table with two columns: "Code" and "Name". The table lists 15 modules, including AIM111, AIM121, ALL121, BCM251, BCM252, BCM257, BCM261, BCM356, BCM357, BIO137, BIO147, BME120, and BME210. A small "N" icon is visible in the bottom left corner, and a circular icon with a lightning bolt is in the bottom right corner.

Code	Name
AIM111	Academic information management 111
AIM121	Academic information management 121
ALL121	Academic literacy for Information Technology 121
BCM251	Introduction to proteins and enzymes 251
BCM252	Carbohydrate metabolism 252
BCM257	Introductory biochemistry 257
BCM261	Lipid and nitrogen metabolism 261
BCM356	Macromolecules of life: structure-function and bioinformatics 356
BCM357	Biocatalysis and integration of metabolism 357
BIO137	Foundational biology 137
BIO147	Foundational biology 147
BME120	Biometry 120
BME210	Biometry 210

02 Filter Modules

Filter Modules by code, name and enrollment

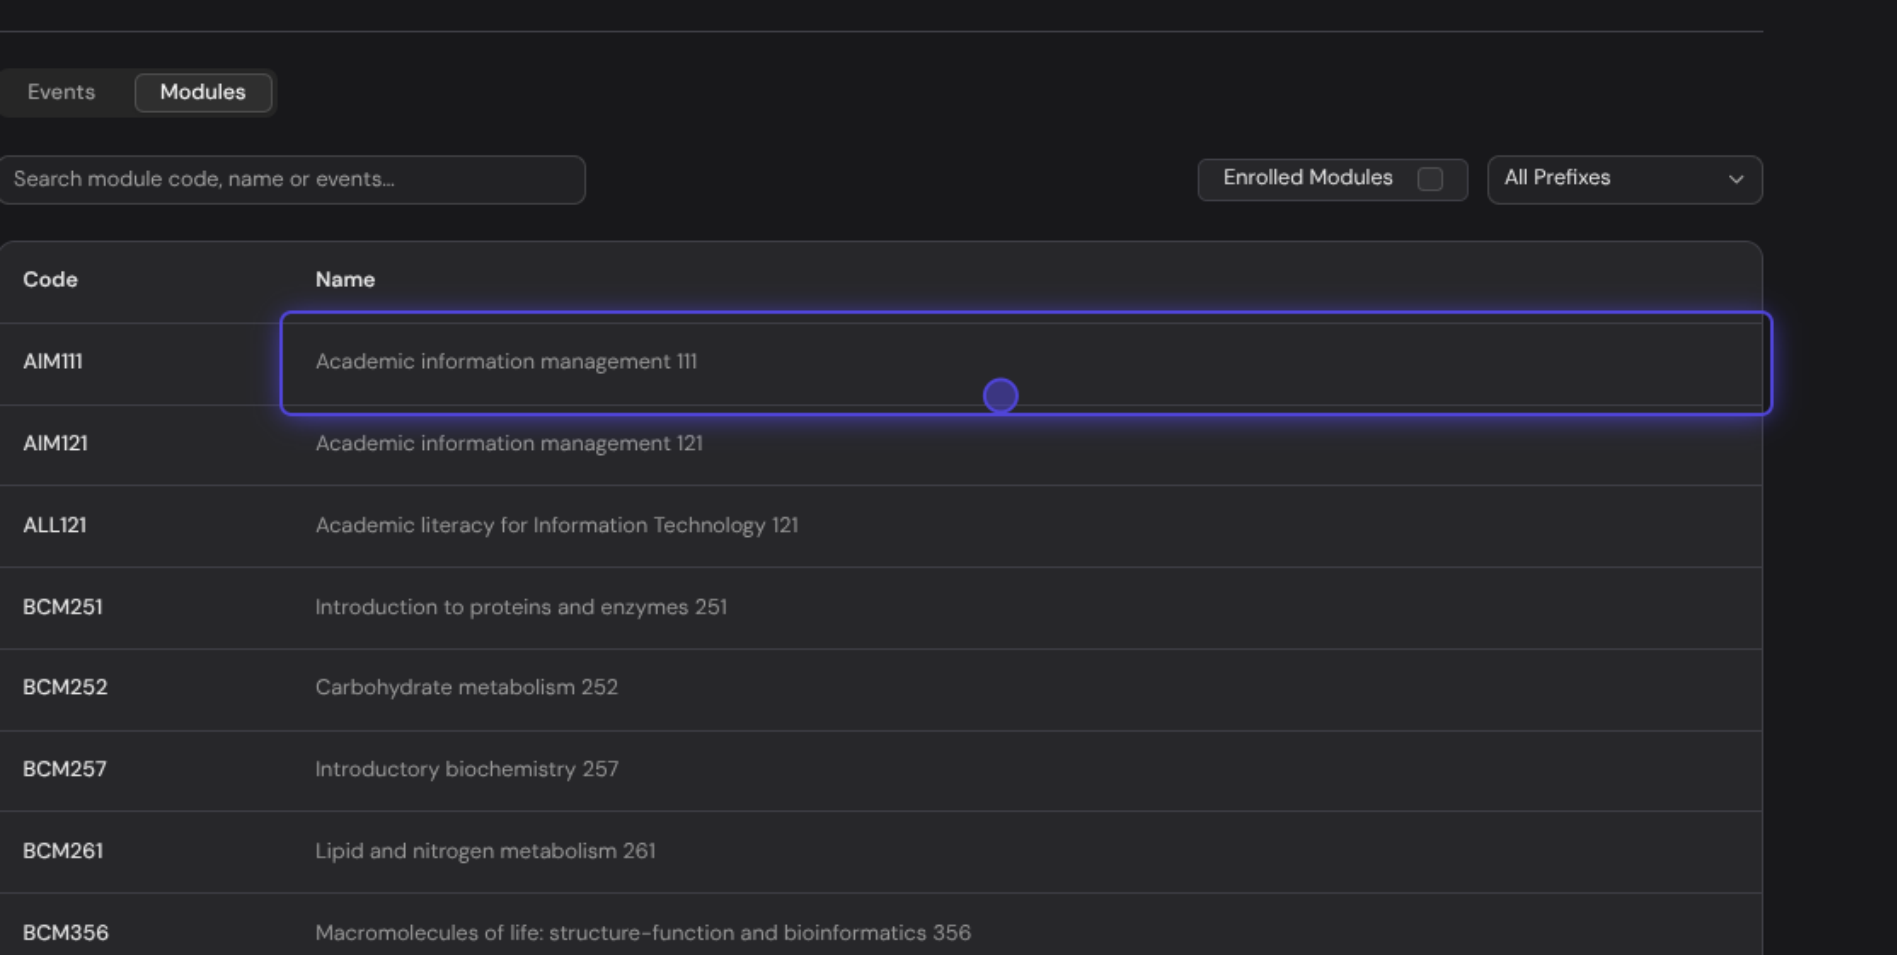

The screenshot displays the 'Module Management' interface. At the top, there is a title 'Module Management' and a subtitle 'Search and filter modules and their events.' Below this, there are two tabs: 'Events' and 'Modules', with 'Modules' being the active tab. A search bar is present with the placeholder text 'Search module code, name or events...'. To the right of the search bar, there are two filters: 'Enrolled Modules' with a checkbox and 'All Prefixes' with a dropdown arrow. Below the search bar and filters is a table with two columns: 'Code' and 'Name'. The table contains the following data:

Code	Name
AIM111	Academic information management 111
AIM121	Academic information management 121
ALL121	Academic literacy for Information Technology 121
BCM251	Introduction to proteins and enzymes 251
BCM252	Carbohydrate metabolism 252
BCM257	Introductory biochemistry 257
BCM261	Lipid and nitrogen metabolism 261
BCM356	Macromolecules of life: structure-function and bioinformatics 356
BCM357	Biocatalysis and integration of metabolism 357

03 Select a module

Click on a module you wish to edit

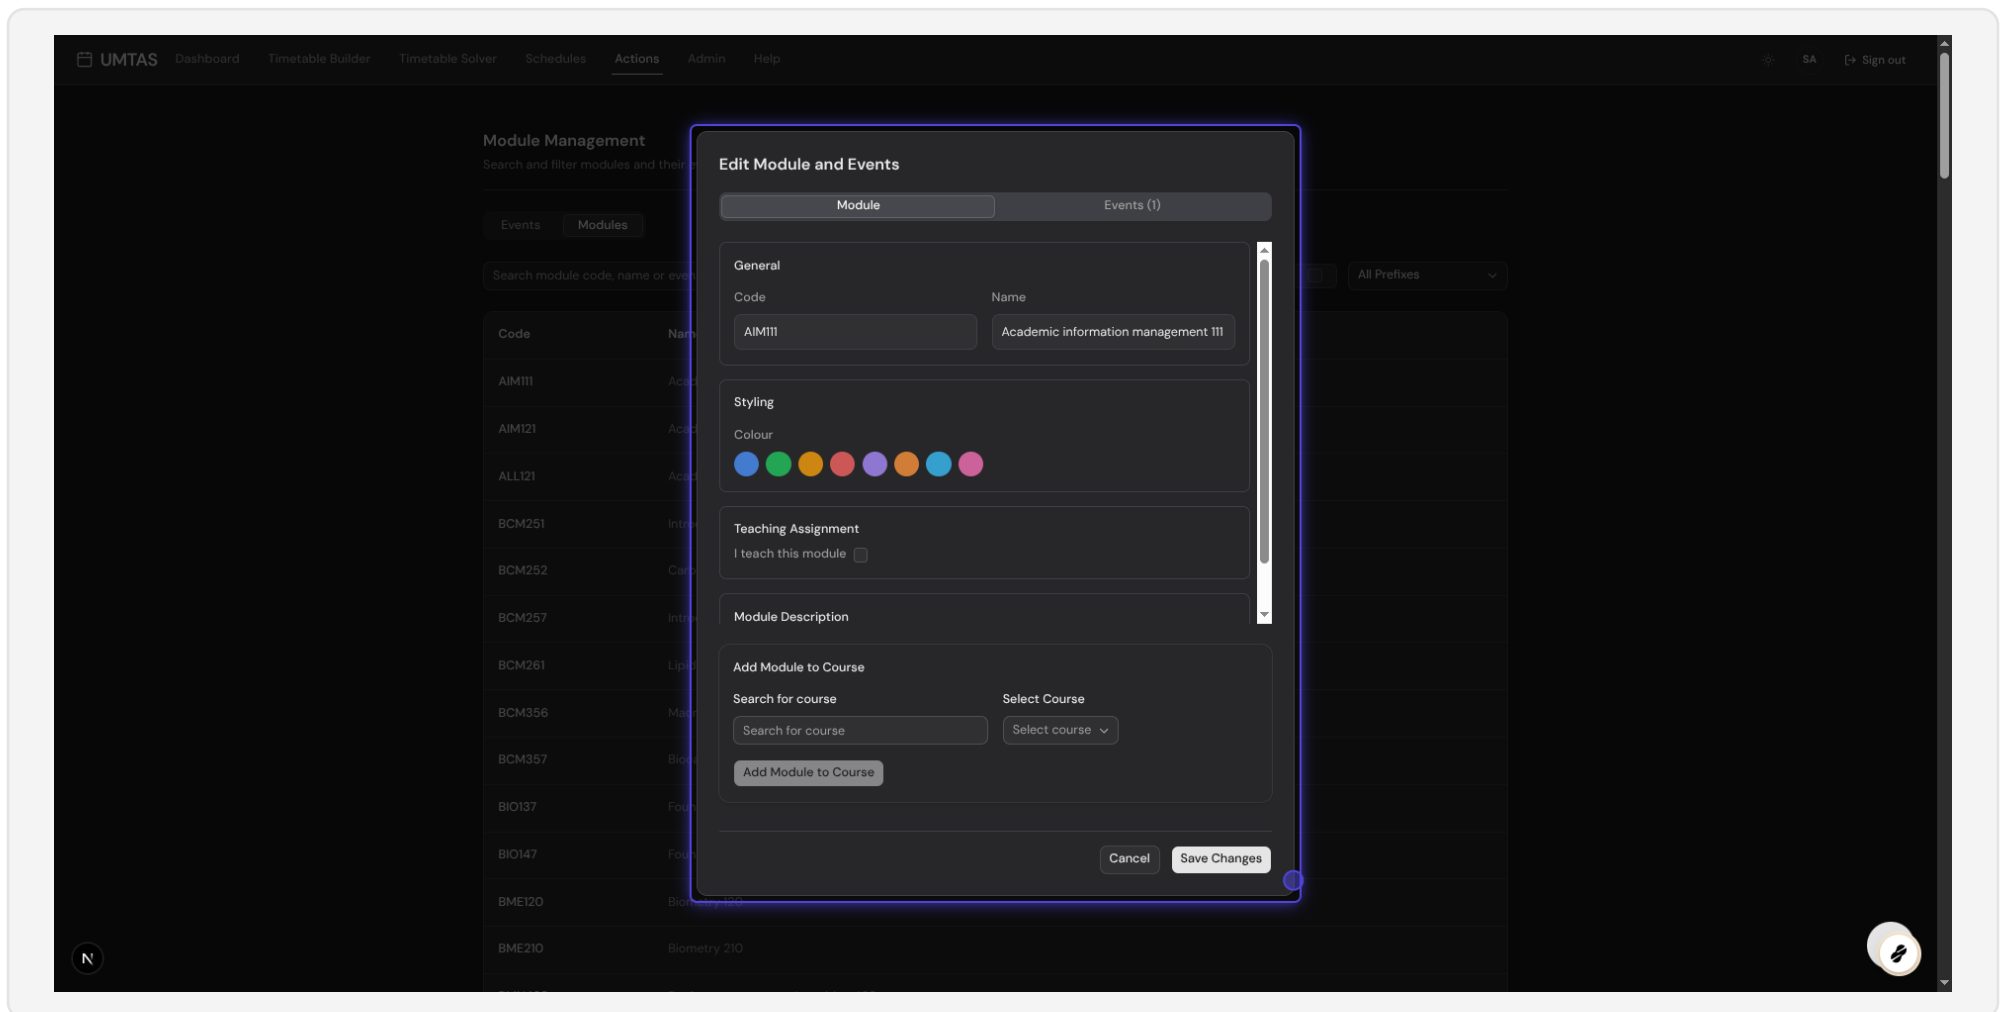

The screenshot shows the 'Modules' management interface. At the top, there are tabs for 'Events' and 'Modules', with 'Modules' being the active tab. Below the tabs is a search bar labeled 'Search module code, name or events...'. To the right of the search bar are two filters: 'Enrolled Modules' with a checkbox and 'All Prefixes' with a dropdown arrow. Below the filters is a table of modules. The first row, 'AIM111 Academic information management 111', is highlighted with a blue border and a blue circle, indicating it is the selected module.

Code	Name
AIM111	Academic information management 111
AIM121	Academic information management 121
ALL121	Academic literacy for Information Technology 121
BCM251	Introduction to proteins and enzymes 251
BCM252	Carbohydrate metabolism 252
BCM257	Introductory biochemistry 257
BCM261	Lipid and nitrogen metabolism 261

01 View all Courses

See all the Courses at your institute.

The screenshot displays the UMTAS Course Management interface. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions (highlighted), Admin, and Help. On the right, there are icons for settings, a user profile labeled 'SA', and a 'Sign out' button.

The main content area is titled 'Course Management' and includes a subtitle 'Search and filter courses, degrees and modules.' Below this is a search bar with the placeholder text 'Search courses, degrees, or module codes/names...'. To the right of the search bar are two dropdown menus: 'All Degrees' and 'All Module Types', followed by an 'Add Courses' button.

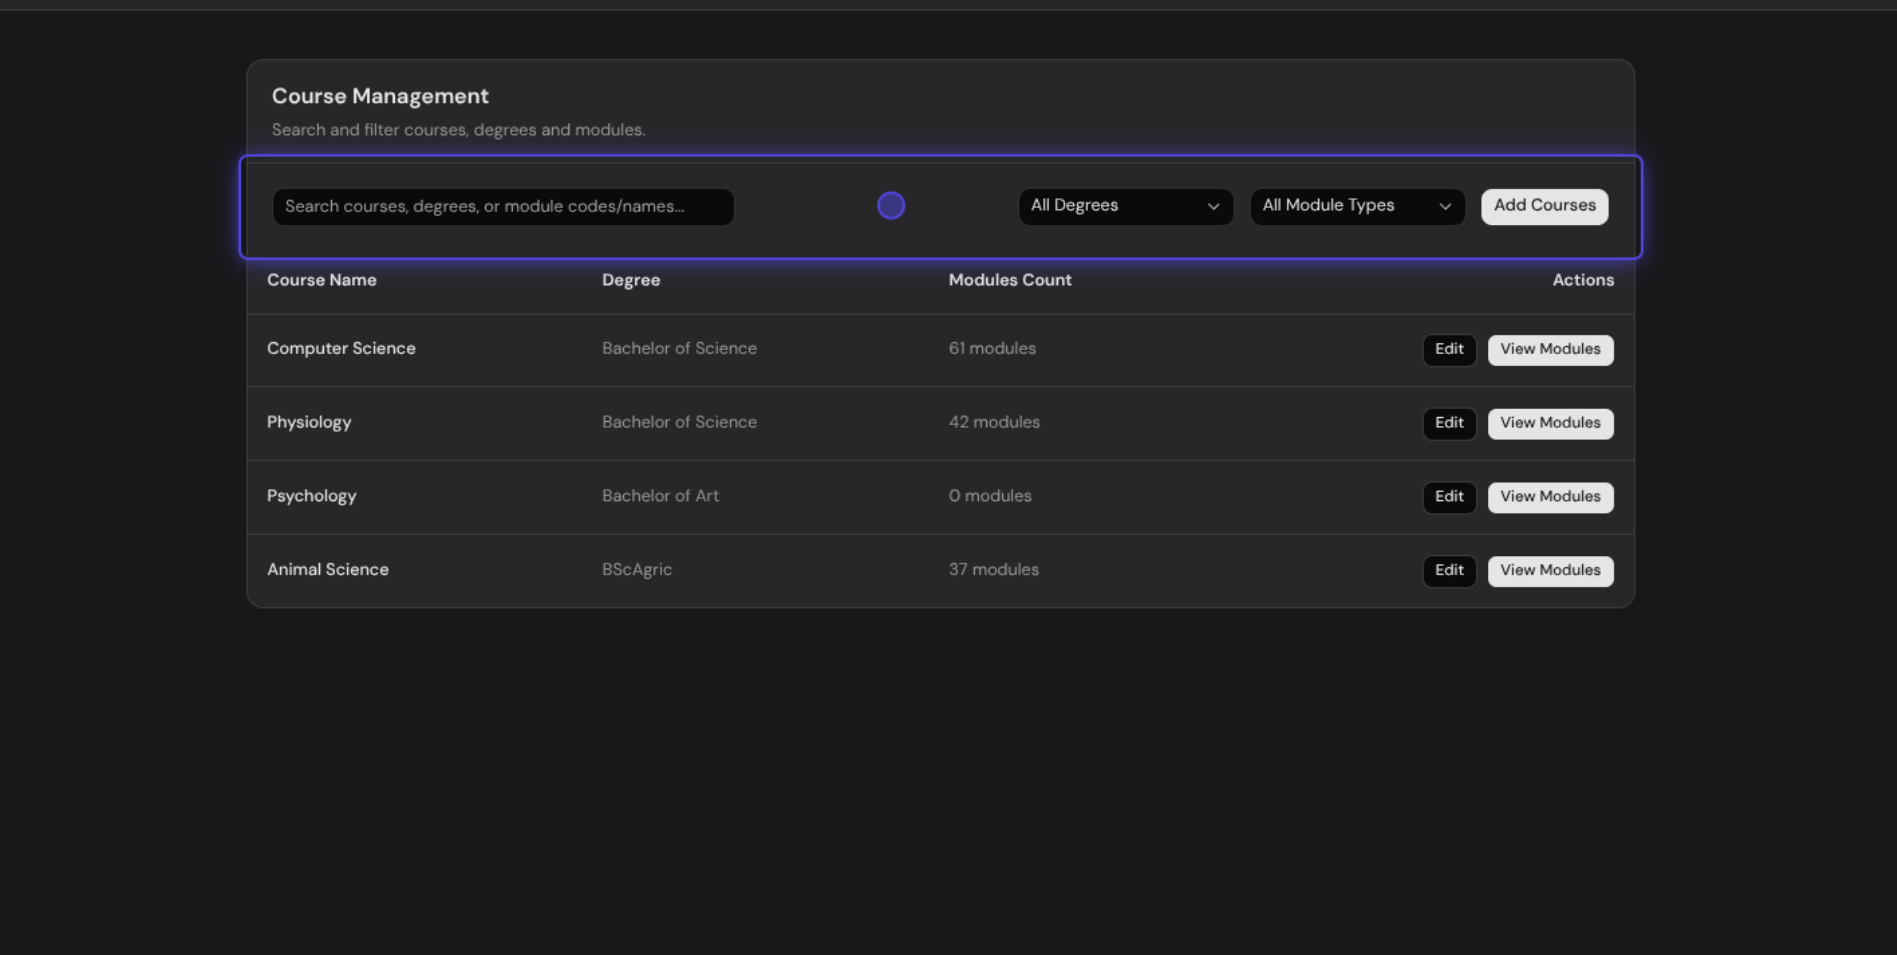

The course list is presented in a table with the following columns: Course Name, Degree, Modules Count, and Actions.

Course Name	Degree	Modules Count	Actions
Computer Science	Bachelor of Science	61 modules	Edit View Modules
Physiology	Bachelor of Science	42 modules	Edit View Modules
Psychology	Bachelor of Art	0 modules	Edit View Modules
Animal Science	BScAgric	37 modules	Edit View Modules

The interface also features a dark theme toggle icon in the bottom left corner and a user profile icon in the bottom right corner.

02 Filter Courses

Filter through courses at your institute

The screenshot displays the 'Course Management' interface. At the top, there is a search bar with the placeholder text 'Search courses, degrees, or module codes/names...'. To the right of the search bar are two dropdown menus: 'All Degrees' and 'All Module Types', both with downward arrows. Further right is a button labeled 'Add Courses'. Below these elements is a table with four columns: 'Course Name', 'Degree', 'Modules Count', and 'Actions'. The table contains four rows of data. Each row has an 'Edit' button and a 'View Modules' button in the 'Actions' column.

Course Name	Degree	Modules Count	Actions

05 Enroll into a course

As a student you can enroll into a specific course

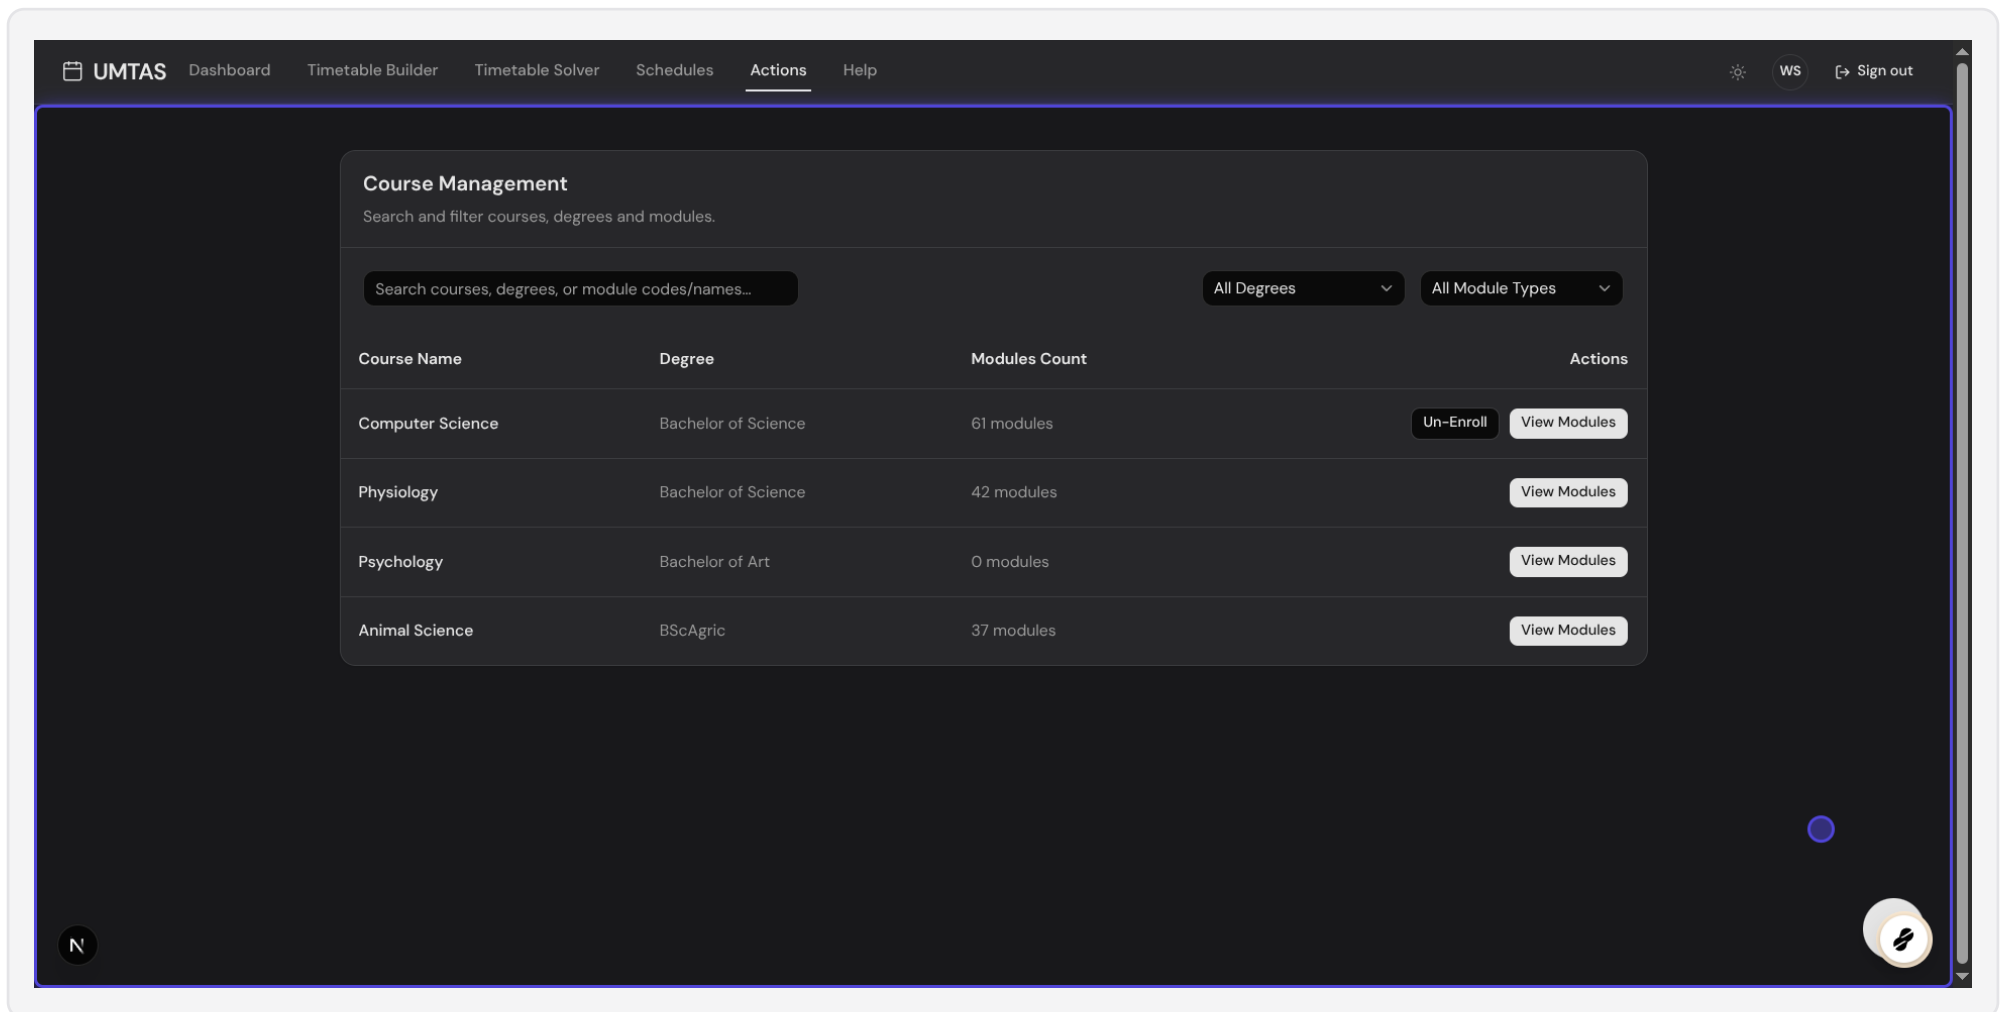

The screenshot shows a dark-themed interface for course management. At the top, there are two dropdown menus: 'All Degrees' and 'All Module Types'. Below these is a table with two columns: 'Modules Count' and 'Actions'. The table contains four rows of module data. The first row shows '61 modules' and has an 'Enroll' button highlighted with a blue circle and a 'View Modules' button. The second row shows '42 modules' and has 'Enroll' and 'View Modules' buttons. The third row shows '0 modules' and has 'Enroll' and 'View Modules' buttons. The fourth row shows '37 modules' and has 'Enroll' and 'View Modules' buttons.

Modules Count	Actions
61 modules	Enroll View Modules
42 modules	Enroll View Modules
0 modules	Enroll View Modules
37 modules	Enroll View Modules

06 Enroll into a course

You may only be enrolled into one course at a time

The screenshot displays the UMTAS Course Management interface. The top navigation bar includes links for Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions (highlighted), and Help. On the right, there are icons for settings, a user profile labeled 'WS', and a 'Sign out' button.

The main content area is titled 'Course Management' with the subtitle 'Search and filter courses, degrees and modules.' Below this is a search bar labeled 'Search courses, degrees, or module codes/names...'. To the right of the search bar are two dropdown menus: 'All Degrees' and 'All Module Types'.

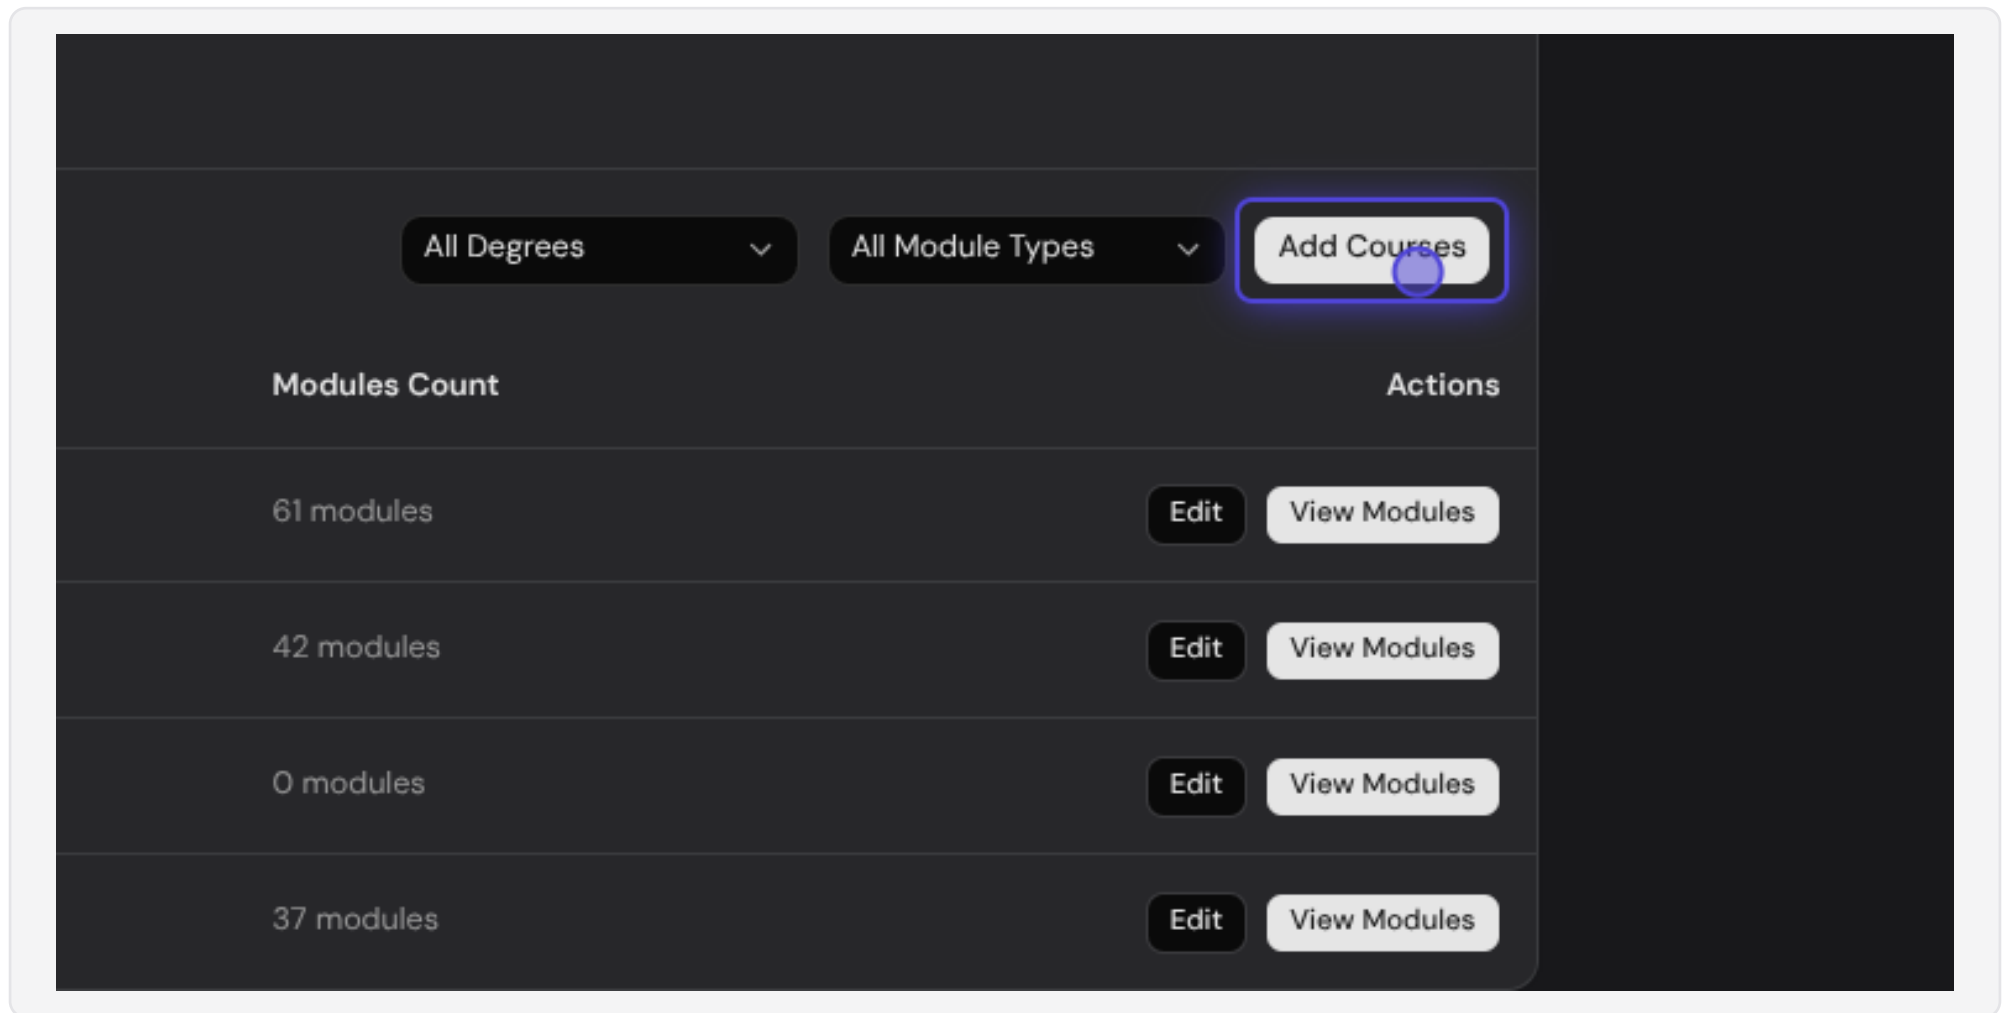

The course data is presented in a table with the following columns: Course Name, Degree, Modules Count, and Actions.

Course Name	Degree	Modules Count	Actions
Computer Science	Bachelor of Science	61 modules	<button>Un-Enroll</button> <button>View Modules</button>
Physiology	Bachelor of Science	42 modules	<button>View Modules</button>
Psychology	Bachelor of Art	0 modules	<button>View Modules</button>
Animal Science	BScAgric	37 modules	<button>View Modules</button>

In the bottom left corner, there is a circular icon with the letter 'N'. In the bottom right corner, there is a circular icon with a gear symbol.

07 Add Course

As a university admin, click on add course to add a course

The screenshot displays the UMTAS Course Management interface. At the top, there are two dropdown menus: 'All Degrees' and 'All Module Types'. To their right is a button labeled 'Add Courses', which is highlighted with a red circle. Below these elements is a table with two columns: 'Modules Count' and 'Actions'.

Modules Count	Actions
61 modules	<button>Edit</button> <button>View Modules</button>
42 modules	<button>Edit</button> <button>View Modules</button>
0 modules	<button>Edit</button> <button>View Modules</button>
37 modules	<button>Edit</button> <button>View Modules</button>

08 Add Course

Enter the details of the new Course

The screenshot shows a 'Create New Course' modal form overlaid on a course management interface. The modal has a dark background with a blue border and a close button in the top right corner. It contains two text input fields: 'Course Name' with the placeholder 'e.g. Blommerangskikking' and 'Degree Name' with the placeholder 'e.g. BA Inkleur'. At the bottom of the modal are two buttons: 'Cancel' and 'Create Course'. The background interface shows a course titled 'Bachelor of Science' with '61 modules'. A list of modules is visible, including 'Information management 111', 'Introduction 110', 'COS210 Theoretical computer science 210', 'COS212 Data structures and algorithms 212', 'LL121 Academic literacy for Information Tech...', 'MY127 General chemistry 127', and 'OS132 Operative programming 132'.

09 Edit Course

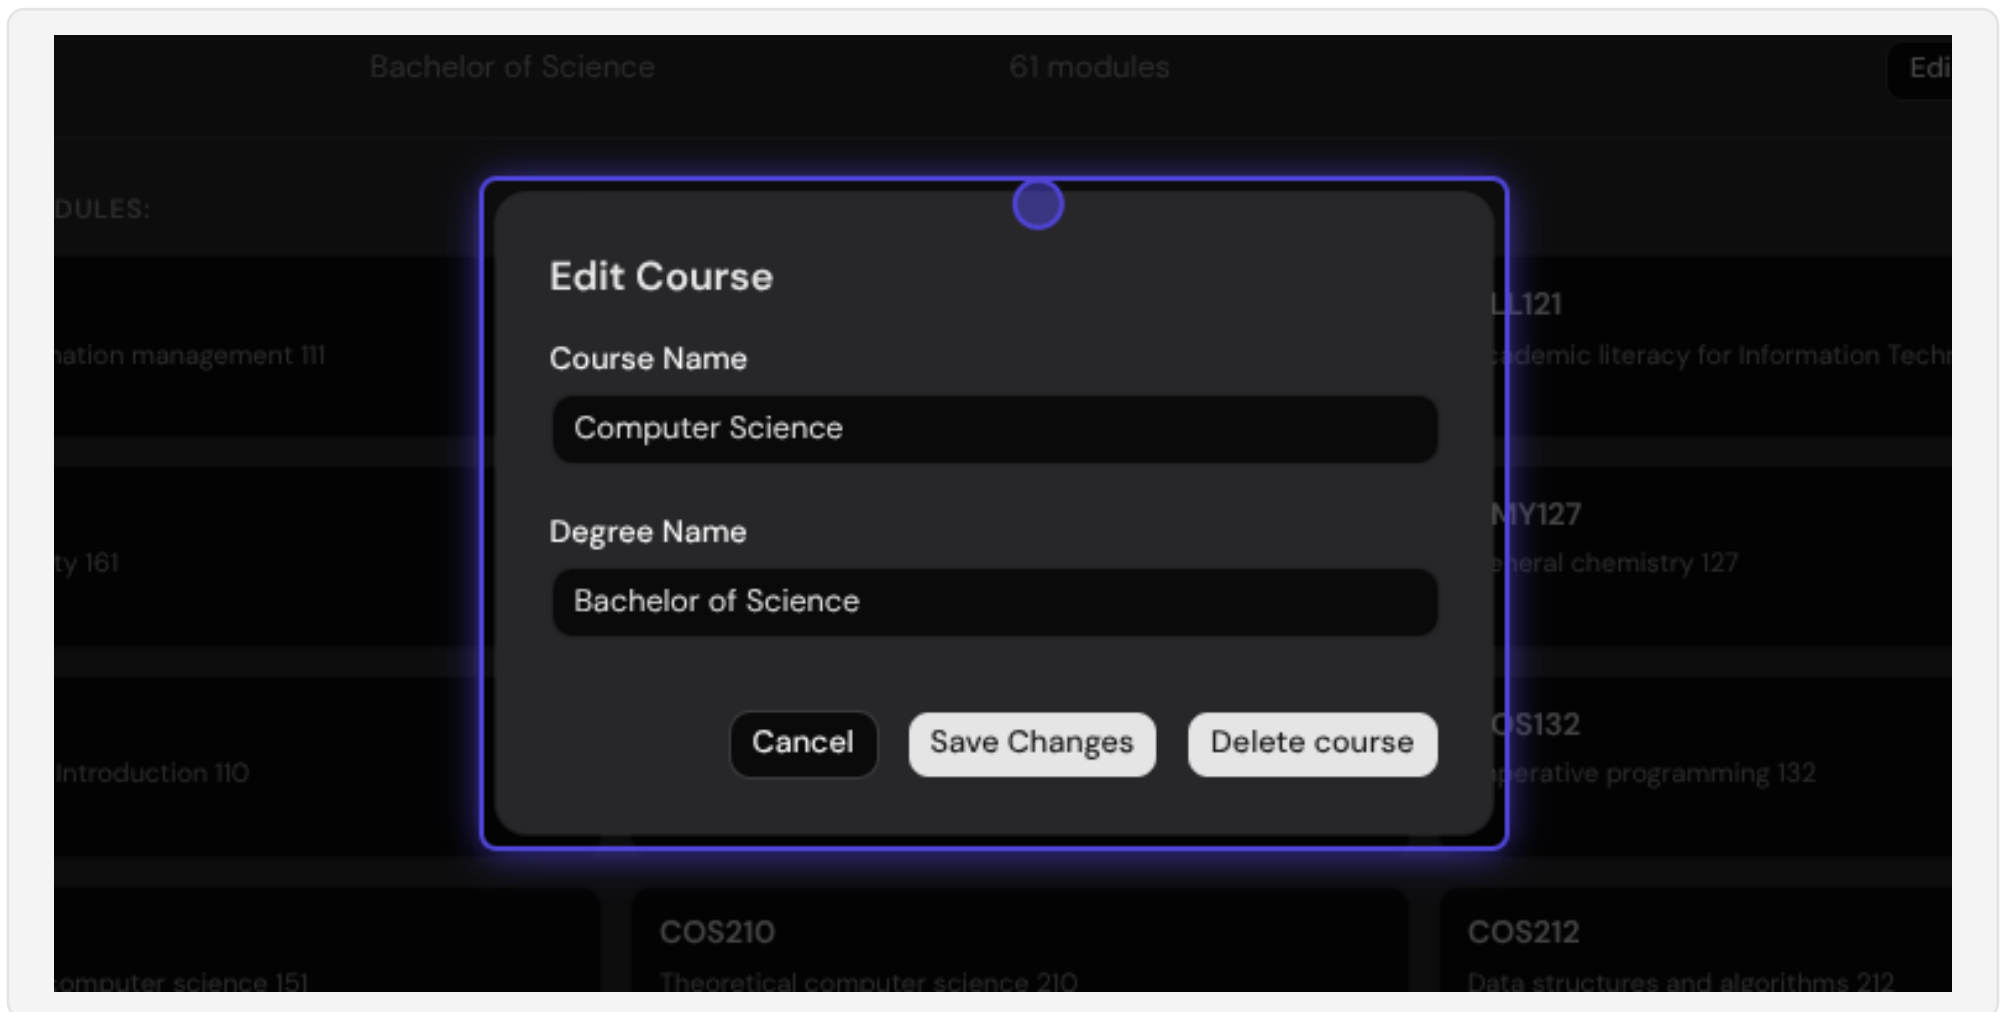

Click Edit, to edit a course

The screenshot displays the UMTAS Course Management interface. At the top, there are two dropdown menus: 'All Degrees' and 'All Module Types', followed by an 'Add Courses' button. Below these, a summary bar shows 'Modules Count' as '61 modules' and 'Actions' with an 'Edit' button (highlighted with a red circle) and a 'Hide Modules' button. The main content area lists four modules in a grid:

Module ID	Module Name
AIM121	Academic information management 121
ALL121	Academic literacy for Information Technology 121
CMY117	General chemistry 117
CMY127	General chemistry 127

10 Edit Course

Review the course details in the edit form, then save your changes.

The screenshot shows a dark-themed user interface for course management. At the top, a header bar displays 'Bachelor of Science' and '61 modules'. A modal window titled 'Edit Course' is centered on the screen, outlined with a blue border. Inside the modal, there are two text input fields: 'Course Name' with the value 'Computer Science' and 'Degree Name' with the value 'Bachelor of Science'. At the bottom of the modal are three buttons: 'Cancel', 'Save Changes', and 'Delete course'. The background is dimmed, showing a list of modules with titles like 'Information management 111', 'ty 161', 'Introduction 110', 'COS210 Theoretical computer science 210', 'COS212 Data structures and algorithms 212', and 'MY127 General chemistry 127'.

Piet Pierneef	PietPierneef@FlyAtUP.com	UNIVERSITY_ADMIN	Update
Wilmar Smit	wilmarsmit2004@gmail.com	STUDENT	Update

02 Search/Filter for a certain Users/Roles

To search or filter for certain Users/roles, use the search box and filter dropdown for certain roles.

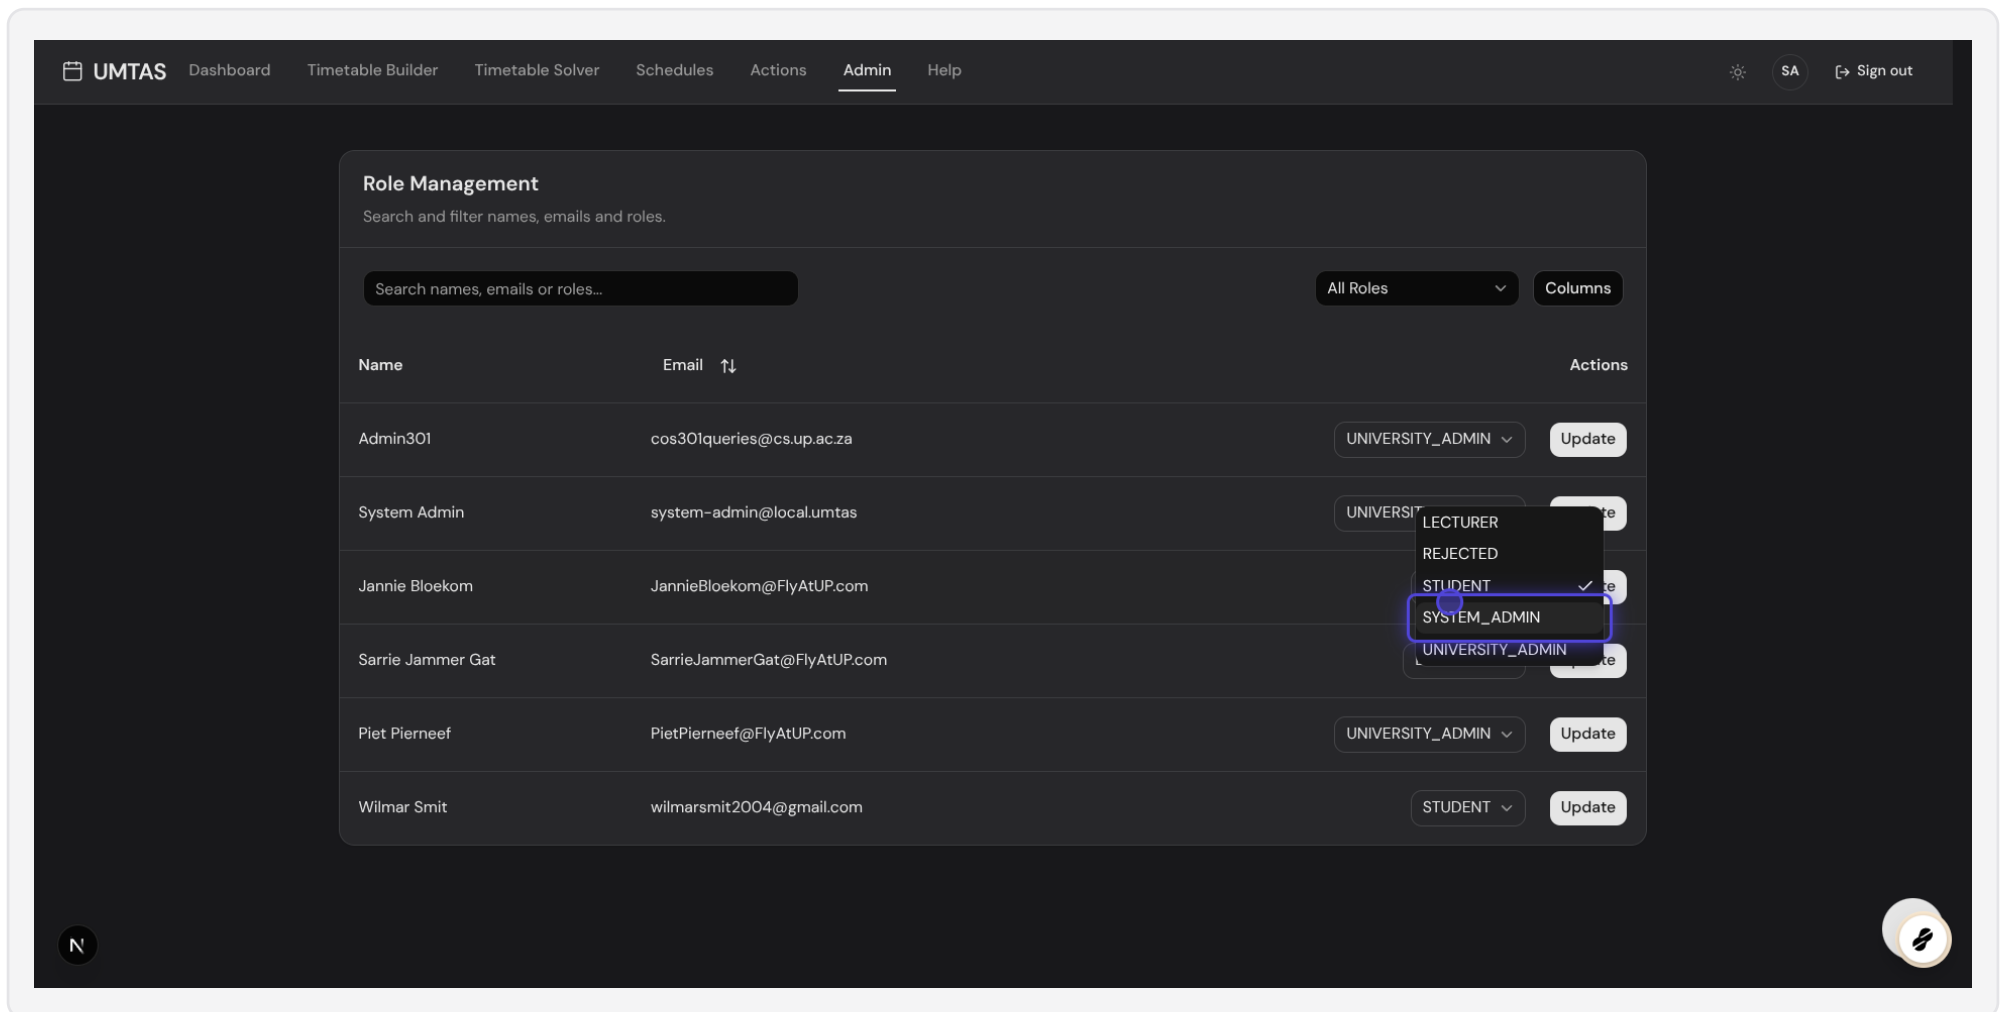

The screenshot displays the UMTAS Role Management interface. At the top, a navigation bar includes links to Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions, Admin (selected), and Help. On the right, there are icons for settings, a user profile (SA), and a Sign out button. The main content area is titled "Role Management" with a subtitle "Search and filter names, emails and roles." Below this, a search bar with the placeholder text "Search names, emails or roles..." is highlighted by a blue box. To the right of the search bar is a filter dropdown menu currently set to "All Roles" and a "Columns" button. Below the search and filter controls is a table with the following columns: Name, Email (with a sort icon), and Actions.

Name	Email ↑↓	Actions
Admin301	cos301queries@cs.up.ac.za	UNIVERSITY_ADMIN ▼ Update
System Admin	system-admin@local.umas	UNIVERSITY_ADMIN ▼ Update
Jannie Bloekom	JannieBloekom@FlyAtUP.com	STUDENT ▼ Update

04 New Restriction

A new Restriction will be displayed, fill in the details and save to add it permanently

The screenshot displays the UMTAS application interface for Calendar Management. The top navigation bar includes links to Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions, Admin (selected), and Help. The user is logged in as SA and can sign out. The main heading is 'Calendar Management' with a subtitle 'Manage academic periods, holidays, recesses and important university dates.' Below this, there's a section for 'Academic Year' with a dropdown set to '2026' and a checked checkbox for 'Include Public Holidays'. To the right are 'Create Restriction' and 'Clear' buttons. A blue dashed box highlights the 'New Restriction' form, which contains a 'Restriction Type' dropdown (set to 'Recess'), 'Start Date' and 'End Date' fields (both with 'mm/dd/yyyy' placeholders and calendar icons), and a 'Description' text area with a save icon. Below this, two existing restrictions are shown as cards. The first card is for 'Semester 1 Start' on '02/09/2026' with description 'Semester 1 starts'. The second card is for 'Recess' from '03/28/2026' to '04/06/2026' with description 'Autumn recess'. Both cards have edit and delete icons. A small 'N' icon is visible in the bottom left corner of the interface.

05 View Restrictions

All restrictions will be displayed below

The screenshot displays a dark-themed user interface for viewing restrictions. A central card is highlighted with a blue border. At the top of the card, the text 'Restriction Type' is followed by a dropdown menu showing 'Semester 1 Start' with a downward arrow. Below this, the text 'Selected Date' is followed by a date input field containing '02/09/2026'. To the right of the date field is a calendar icon and a red-outlined trash can icon. Underneath, the text 'Description' is followed by a text input field containing 'Semester 1 starts'. To the right of the description field is a green-outlined save icon. Above the card, a date selector shows '2026' and a toggle switch for 'Include Public Holidays' is visible. Below the card, the text 'Restriction Type' is partially visible.

07 Delete Restriction

Click on the icon to delete restrictions

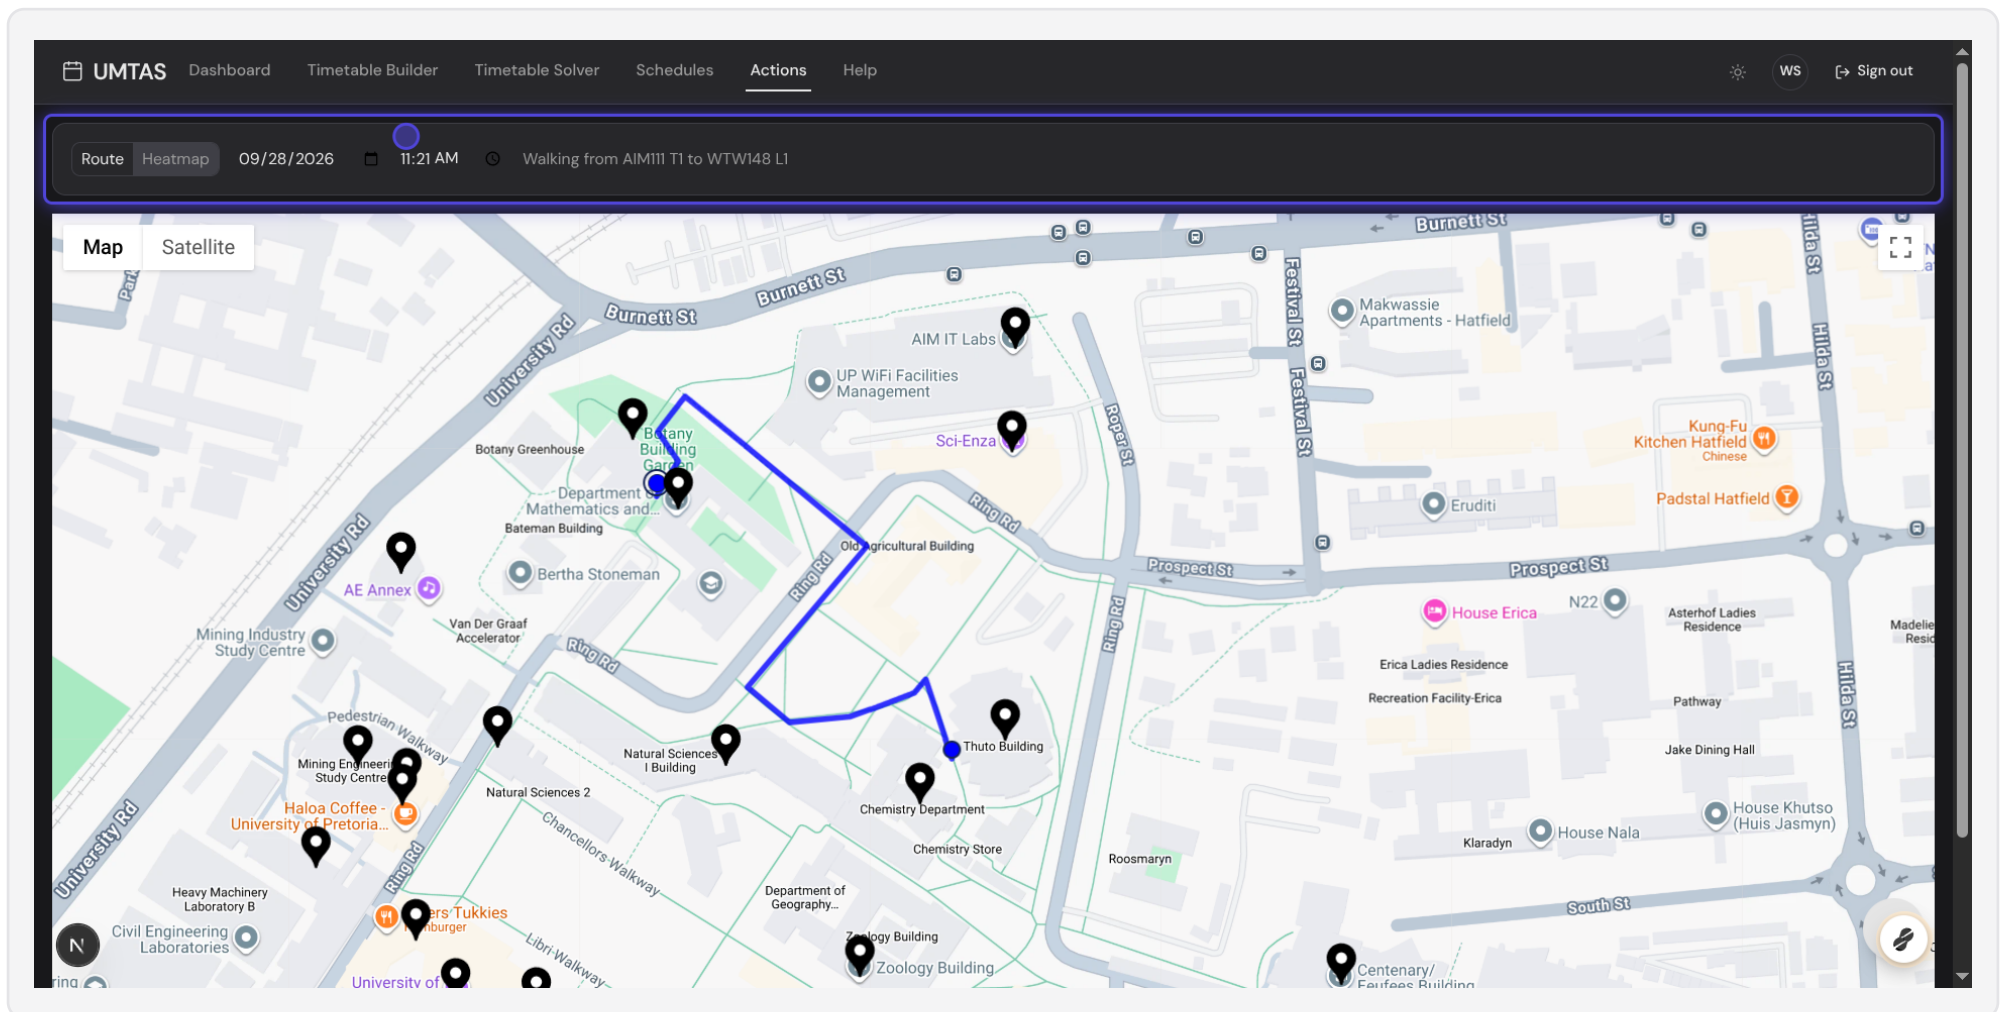

The screenshot displays the 'Delete Restriction' step in the UMTAS Calendar interface. On the left, a list of restrictions is shown, with the first entry highlighted. A red circle and a blue glow highlight the trash can icon next to the first entry. Below the list, a green circle highlights the 'Add' icon (a document with a plus sign). On the right, the details for the selected restriction are shown:

- Restriction Type:** A dropdown menu showing 'Recess' with a downward arrow.
- Start Date:** A date field showing '03/28/2026' with a calendar icon.
- End Date:** A date field showing '04/01/2026' with a calendar icon.
- Description:** A text field showing 'Autumn recess'.

At the bottom of the right panel, the 'Restriction Type' label is visible again.

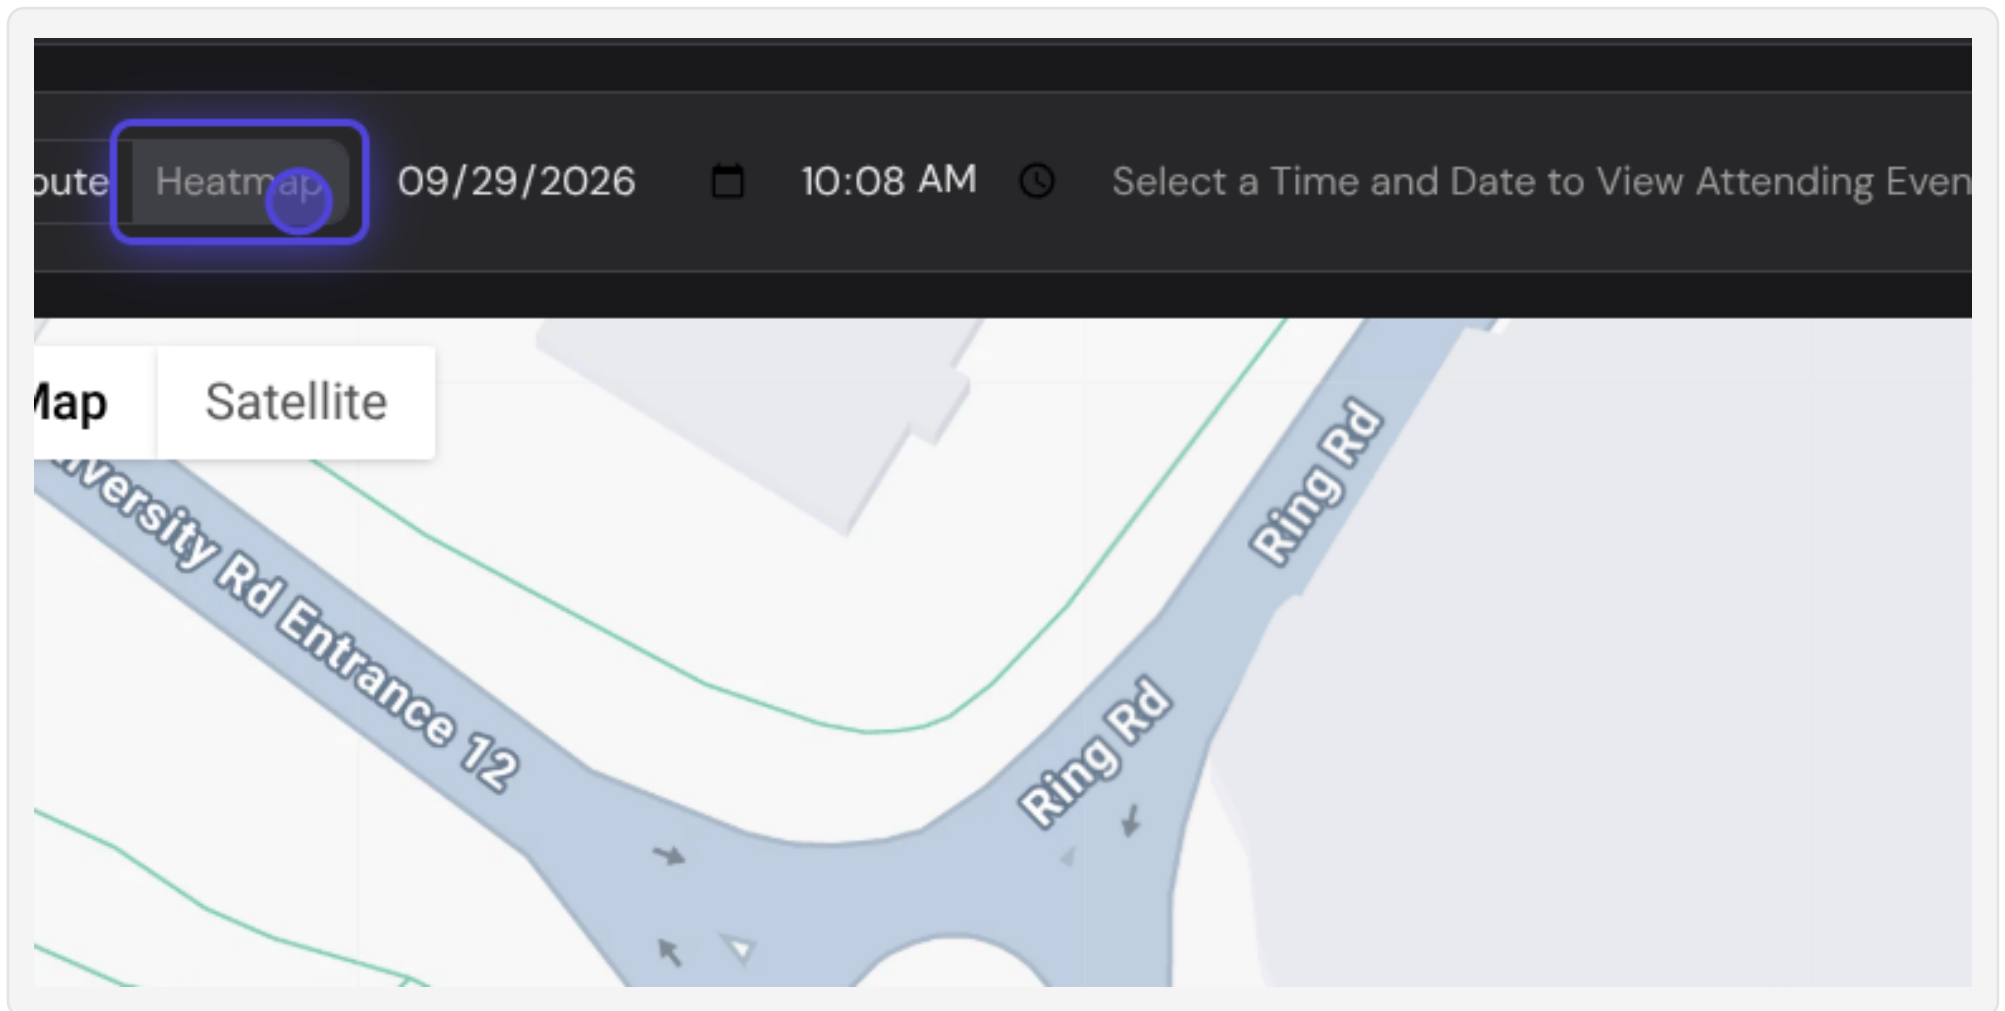

01 Route

If you have an event at the selected time you will be routed to the event automatically

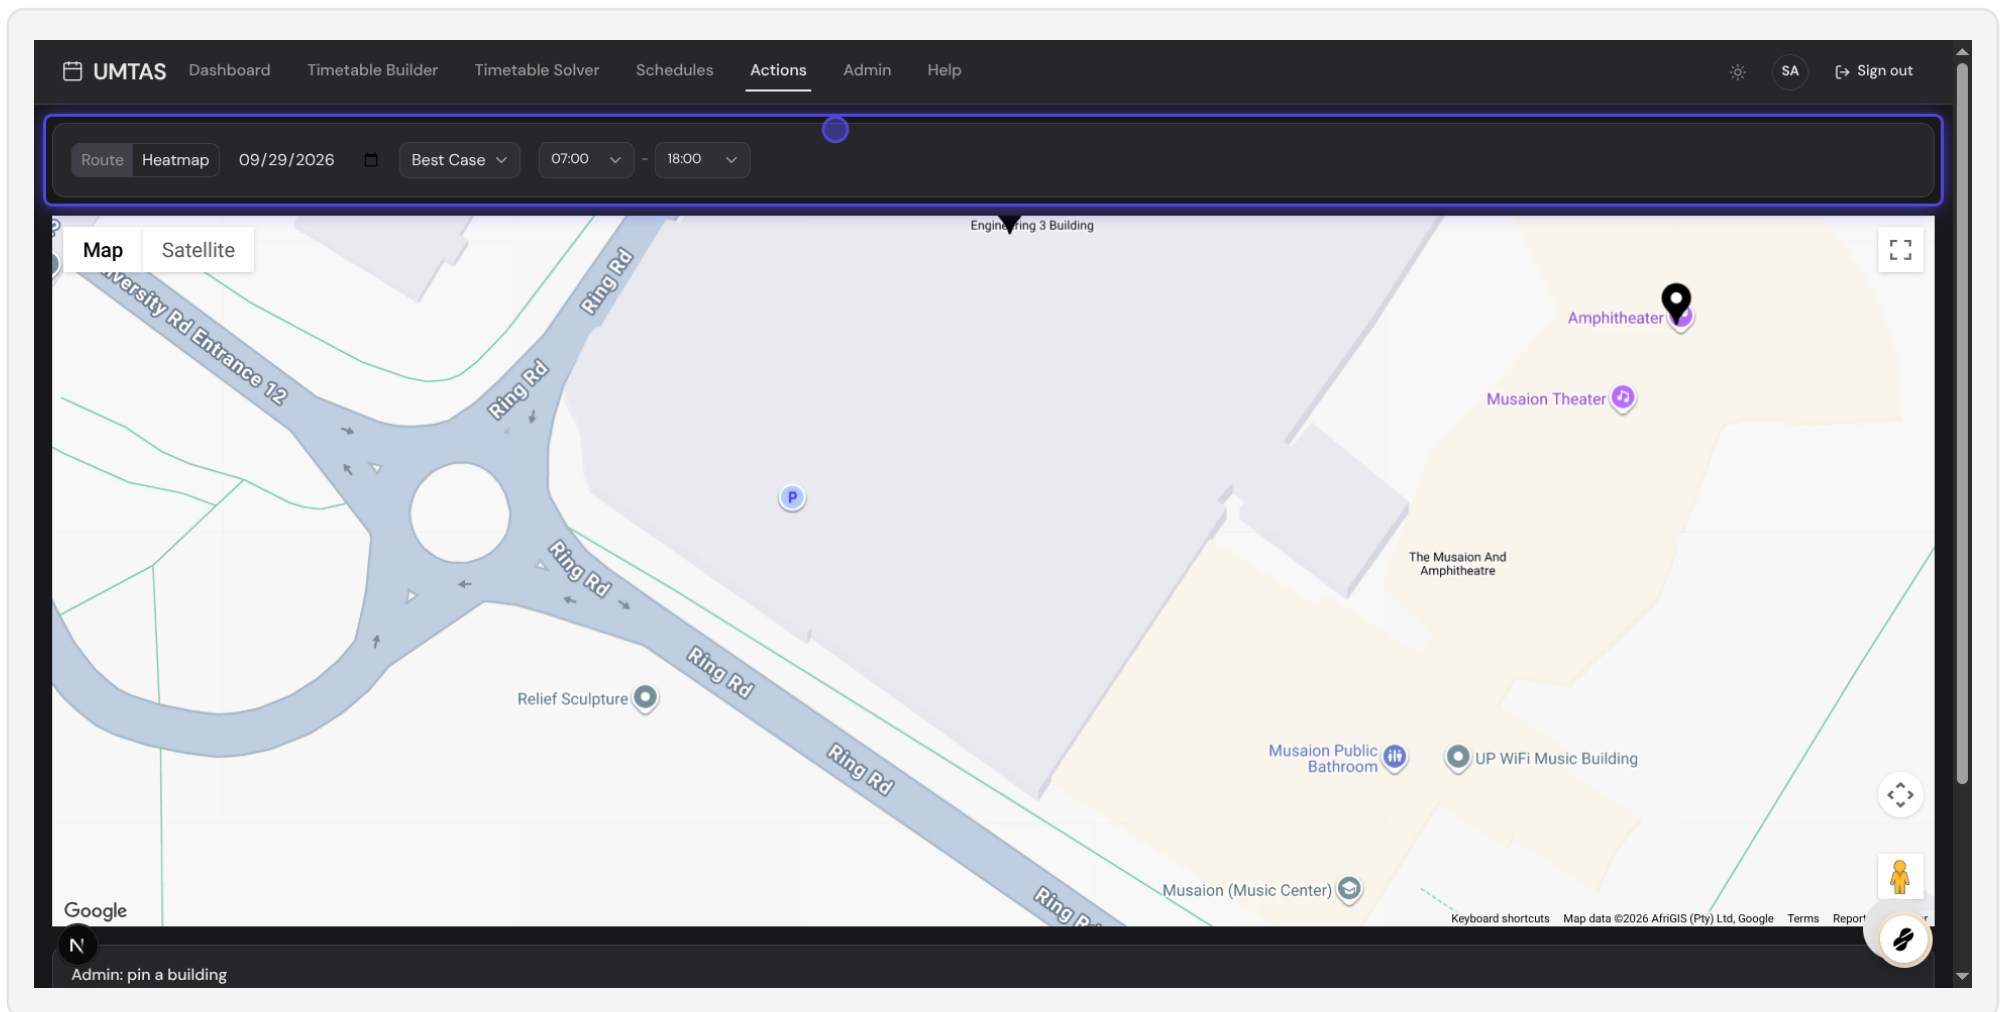

02 Heatmap

Click on the heatmap tab to view the institute heatmap

03 Heatmap Settings

On the heatmaps tab Settings can be altered for specific ranges

04 Create Buildings

As a university admin you can pin and create building outlines

The screenshot displays the UMTAS MAP interface, which is used for managing building data on a map. The interface is divided into several sections:

- Navigation Bar:** Located at the top, it includes links to Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions (highlighted), Admin, and Help. On the right, there are icons for a sun, a user profile (SA), and a Sign out button.
- Map:** The central area shows a Google Map of the University of Pretoria campus. Numerous buildings are labeled, including the CEFIM Building, Engineering 3-1, Engineering 3 Building, Musaion Theater, The Musaion And Amphitheatre, Theology Building, University of Pretoria Library Services, Human Sciences Building, Open-labs IT building, IT Building, Conference Centre, University of Pretoria Graduate School, Law Building, Economics Department, University of Pretoria, Tukkiewerf, Monastery Hall, University of Pretoria, Conference Centre, Adlers Rest, Bio-Annex, Agricultural Annex, Visitors Reception, Kya Rosa, Communication Pathology Building, Boukunde, Centre for Augmentative & Alternative..., Up Arts Square, Walkway around Arts Bldg, Javett Bridge South Campus Entrance, Building 6, UP South Campus, University of Pretoria South Campus, and TuksPrint. Pins are placed on the map to indicate building locations.
- Admin: pin a building:** A panel at the bottom left with a dropdown menu labeled "Choose a building to map" and a button labeled "+ New Building".
- Reroute traffic between buildings:** A panel at the bottom right with a dropdown menu labeled "From building" and a button labeled "To building".

05 Rerouting Students

As a university admin you can reroute congested paths for alternate routes

The screenshot displays the UMTAS Map interface, which is used for managing campus navigation. The top navigation bar includes links to Dashboard, Timetable Builder, Timetable Solver, Schedules, Actions, Admin, and Help. The main map area shows a Google Map of the University of Pretoria campus, with various buildings and roads labeled. A sidebar on the left lists buildings, and a bottom panel provides controls for pinning buildings and rerouting traffic between them.
